

Adobe

Acrobat VIP Licensing & Deployment

Walkthrough Deck

Introduction

- This deck is a step-by-step guide on how to (1) Manage user licenses & (2) deploy Acrobat VIP Subscriptions in your organization.

1. VIP License & User management in the Team Admin Console

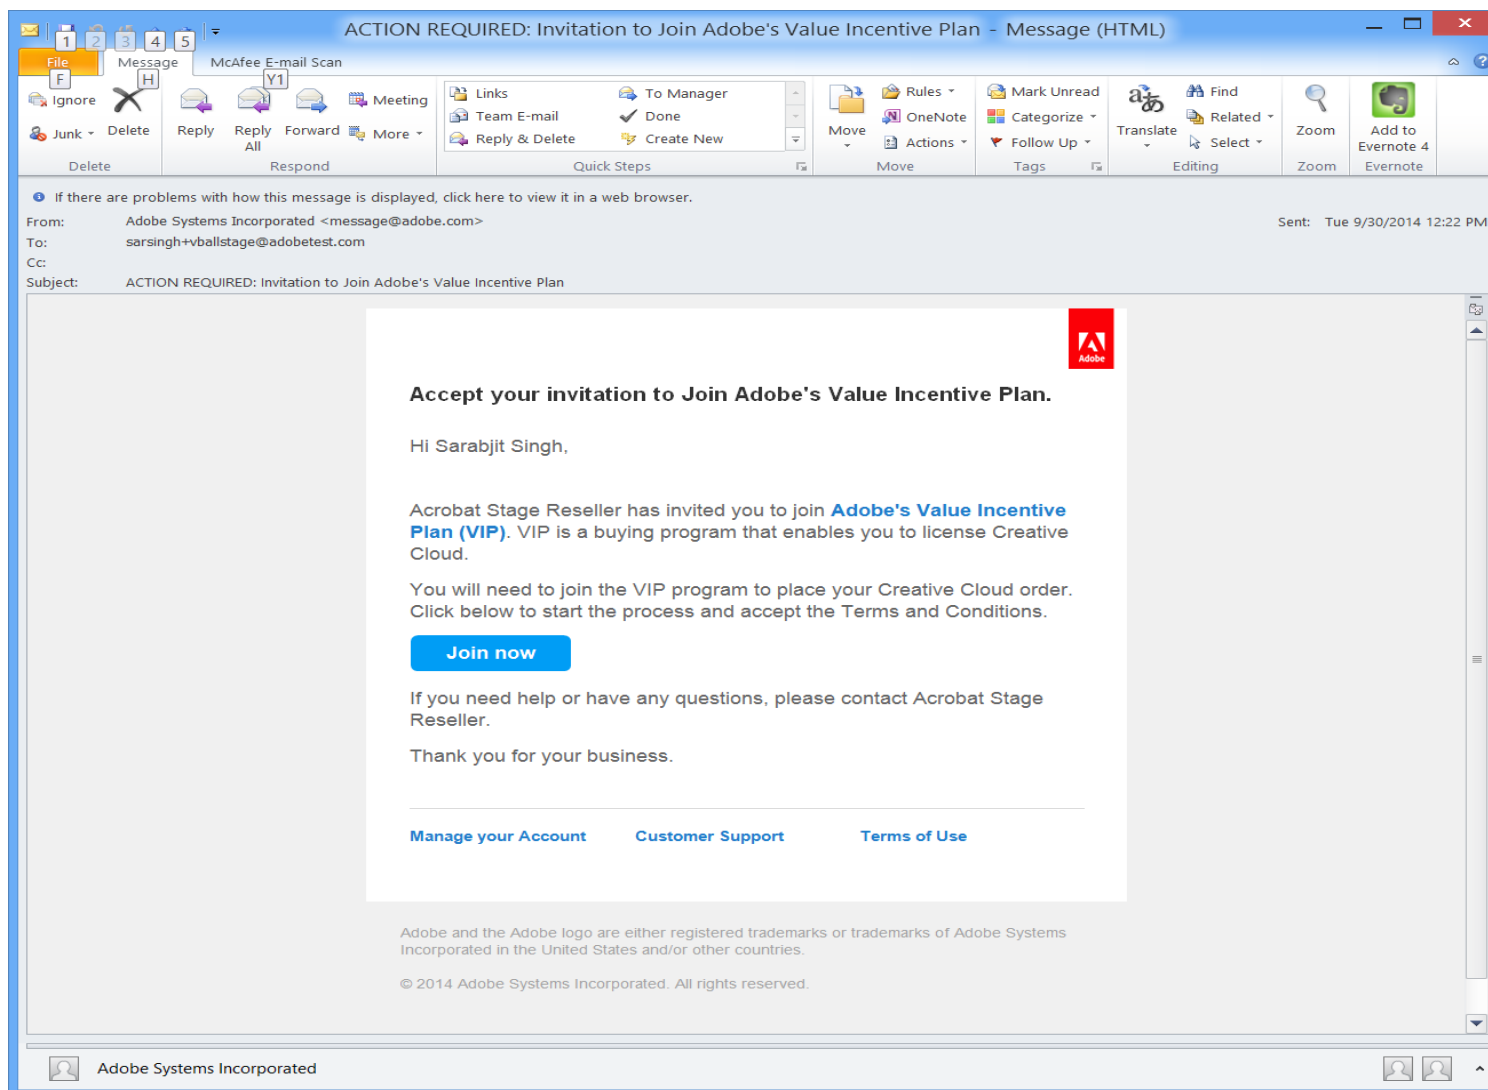

Create a customer in Reseller Console

The screenshot shows a web browser window with the Adobe Reseller Console interface. A modal window titled "Add Customer Organization" is open, displaying a form with the following fields and values:

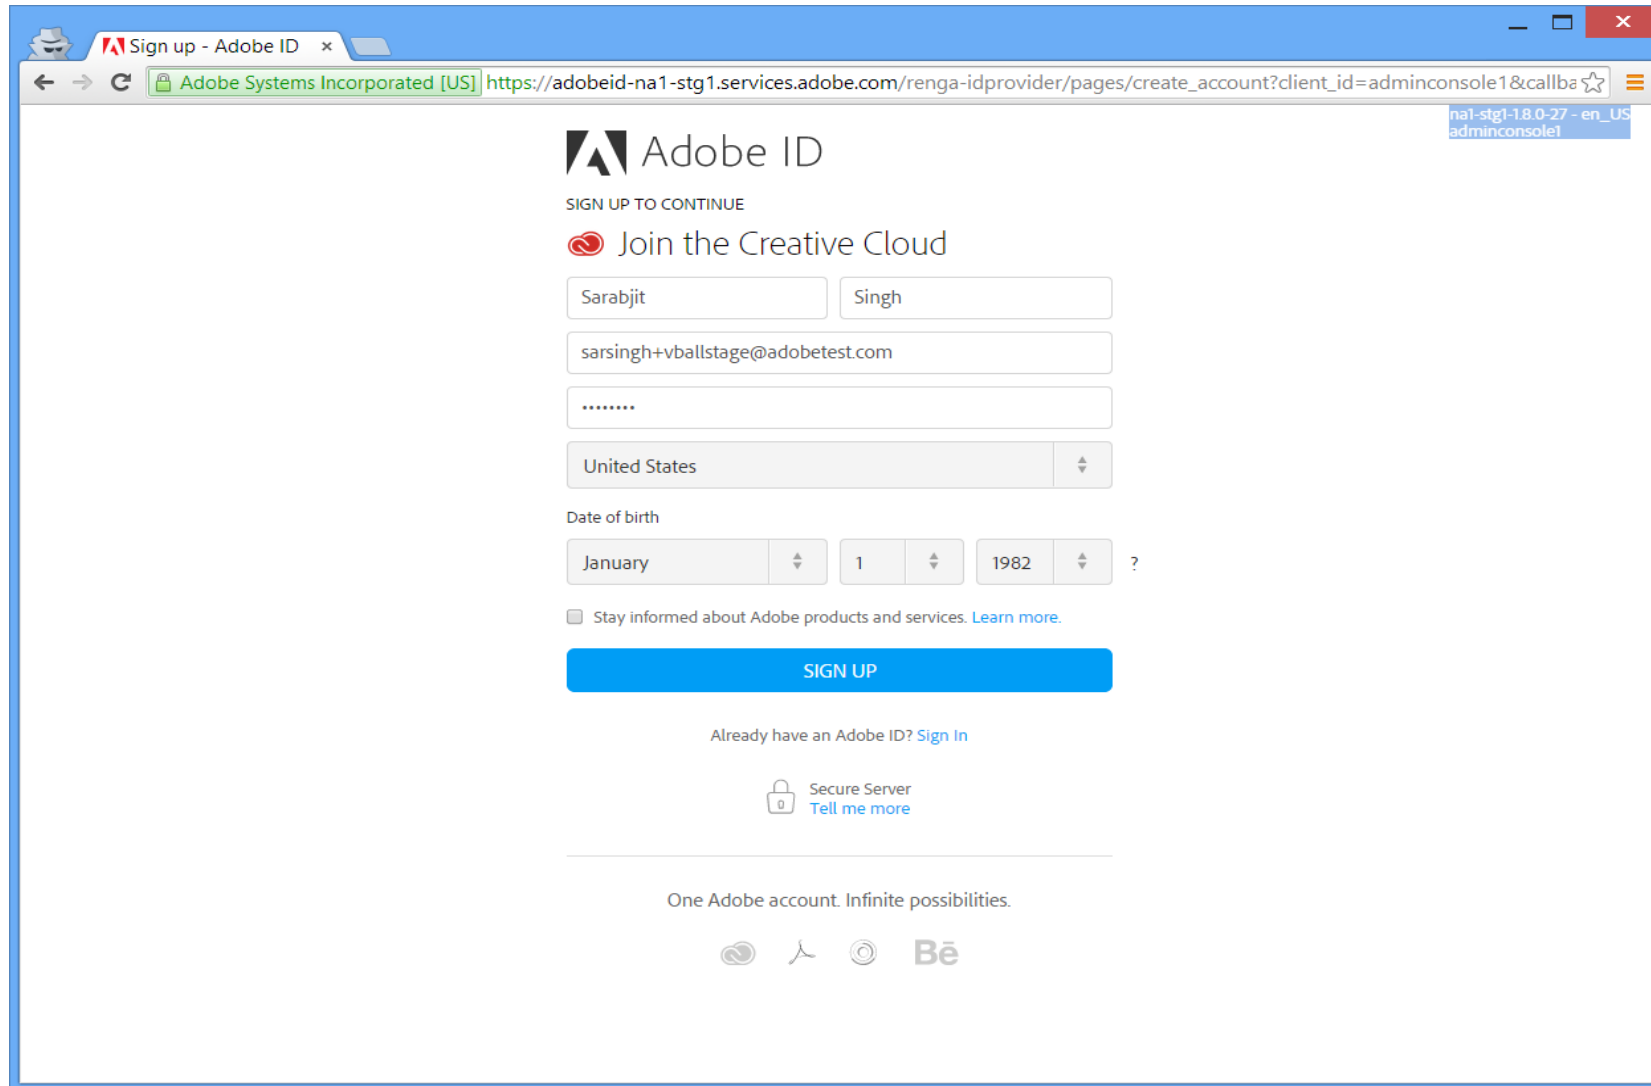

- Organization Name:** Volleyball shop
- Market Segment:** Commercial
- Country / Region:** United States
- Address:** 345 park ave
- City:** San Jose
- State / Province:** California
- ZIP Code:** 95110
- Organization Contact (this will be your primary contact with this organization):**
 - Email Address:** sarsingh+vballstage@adobe
 - First Name:** Sarajit
 - Last Name:** Singh

At the bottom of the form are two buttons: "Invite customer" (highlighted in blue) and "Cancel".

Signup for VIP program

Signup for VIP program

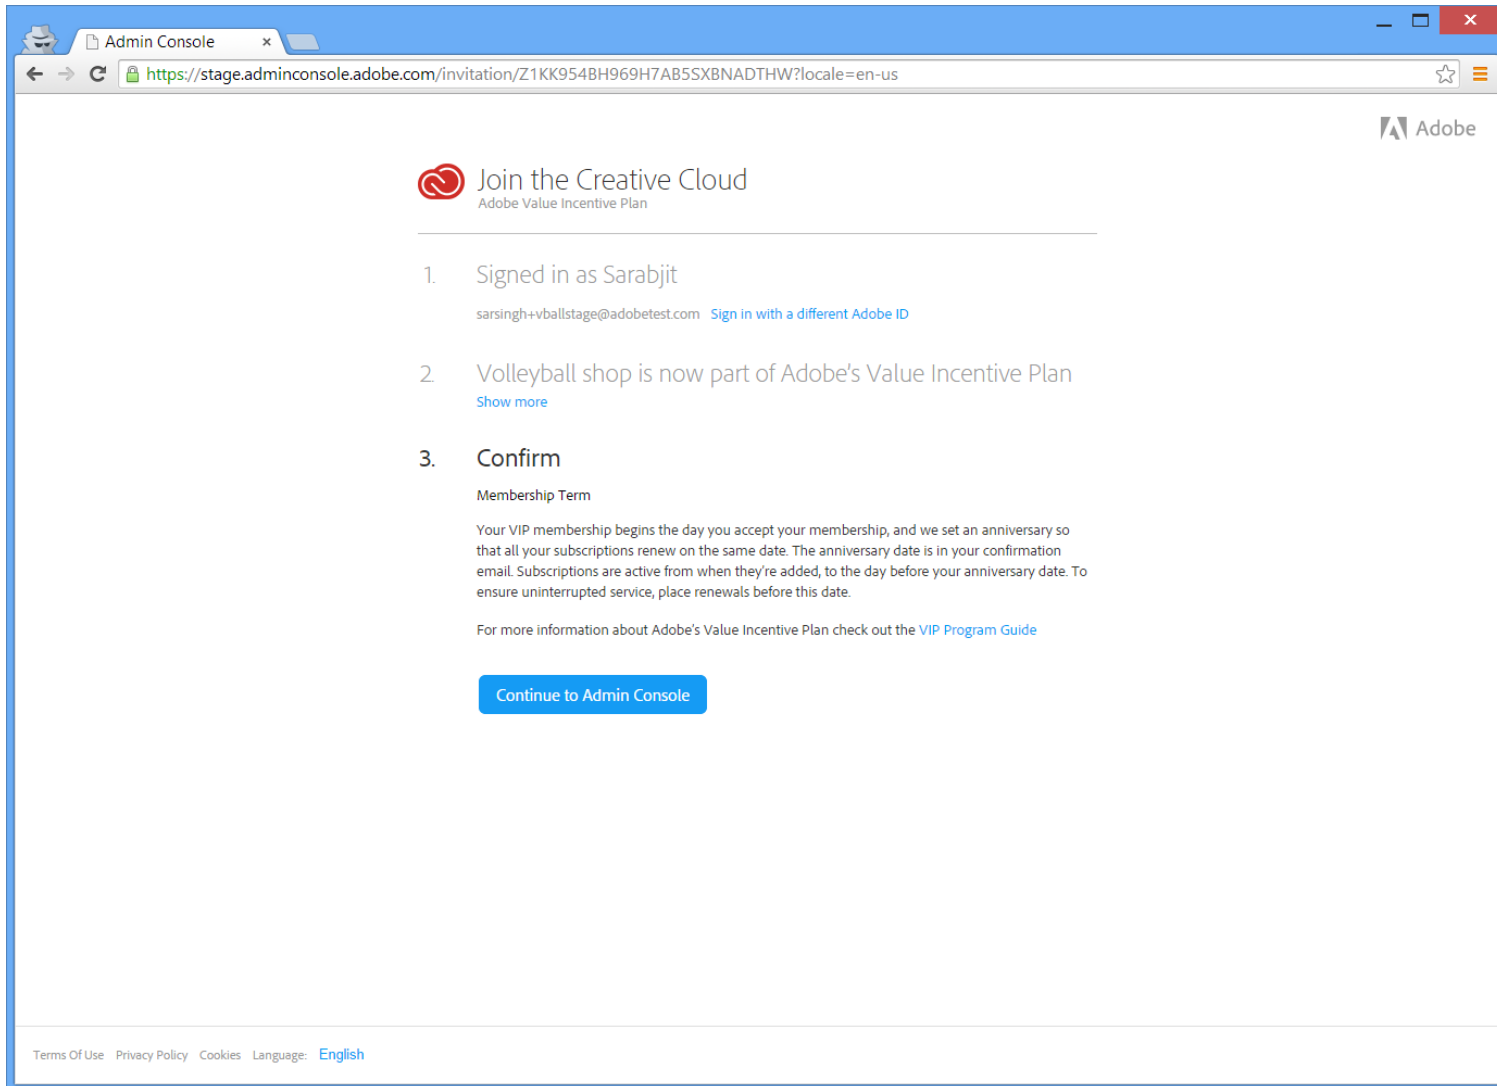

The screenshot shows a web browser window with the title "Sign up - Adobe ID". The address bar displays the URL: https://adobeid-na1-stg1.services.adobe.com/renga-idprovider/pages/create_account?client_id=adminconsole1&callba. The page content includes the Adobe ID logo, the text "SIGN UP TO CONTINUE", and "Join the Creative Cloud". The form fields are: first name "Sarabjit", last name "Singh", email "sarsingh+vballstage@adobetest.com", a password field with ".....", a country dropdown set to "United States", and a date of birth selector set to "January 1, 1982". There is a checkbox for "Stay informed about Adobe products and services" and a blue "SIGN UP" button. Below the button, there is a link "Already have an Adobe ID? Sign In", a "Secure Server" icon with a "Tell me more" link, and the text "One Adobe account. Infinite possibilities." followed by icons for Creative Cloud, PDF, and Be.

Signup for VIP program

The screenshot shows a web browser window with the following content:

- Browser Tab:** Admin Console
- URL:** <https://stage.adminconsole.adobe.com/invitation/Z1KK954BH969H7AB5SXBADTHW?locale=en-us>
- Header:** Adobe logo
- Section:** Join the Creative Cloud
Adobe Value Incentive Plan
- Step 1:** Signed in as Sarabjit
sarsingh+vballstage@adobetest.com [Sign in with a different Adobe ID](#)
- Step 2:** Review membership details
Please ensure this is the correct information for your organization. If the information is incorrect, contact your reseller.
- YOUR DETAILS**
Volleyball shop
345 park ave
San Jose, California 95110
United States
Market segment: Commercial
- RESELLER DETAILS**
Acrobat Stage Reseller
601 Townsend
San Francisco, CA 94013
United States
- I have read and agree to [Adobe Value Incentive Plan Terms & Conditions](#)
- [Accept Terms & Conditions](#)
- Step 3:** Confirm
- Footer:** [Terms Of Use](#) [Privacy Policy](#) [Cookies](#) Language: [English](#)

Signup for VIP program

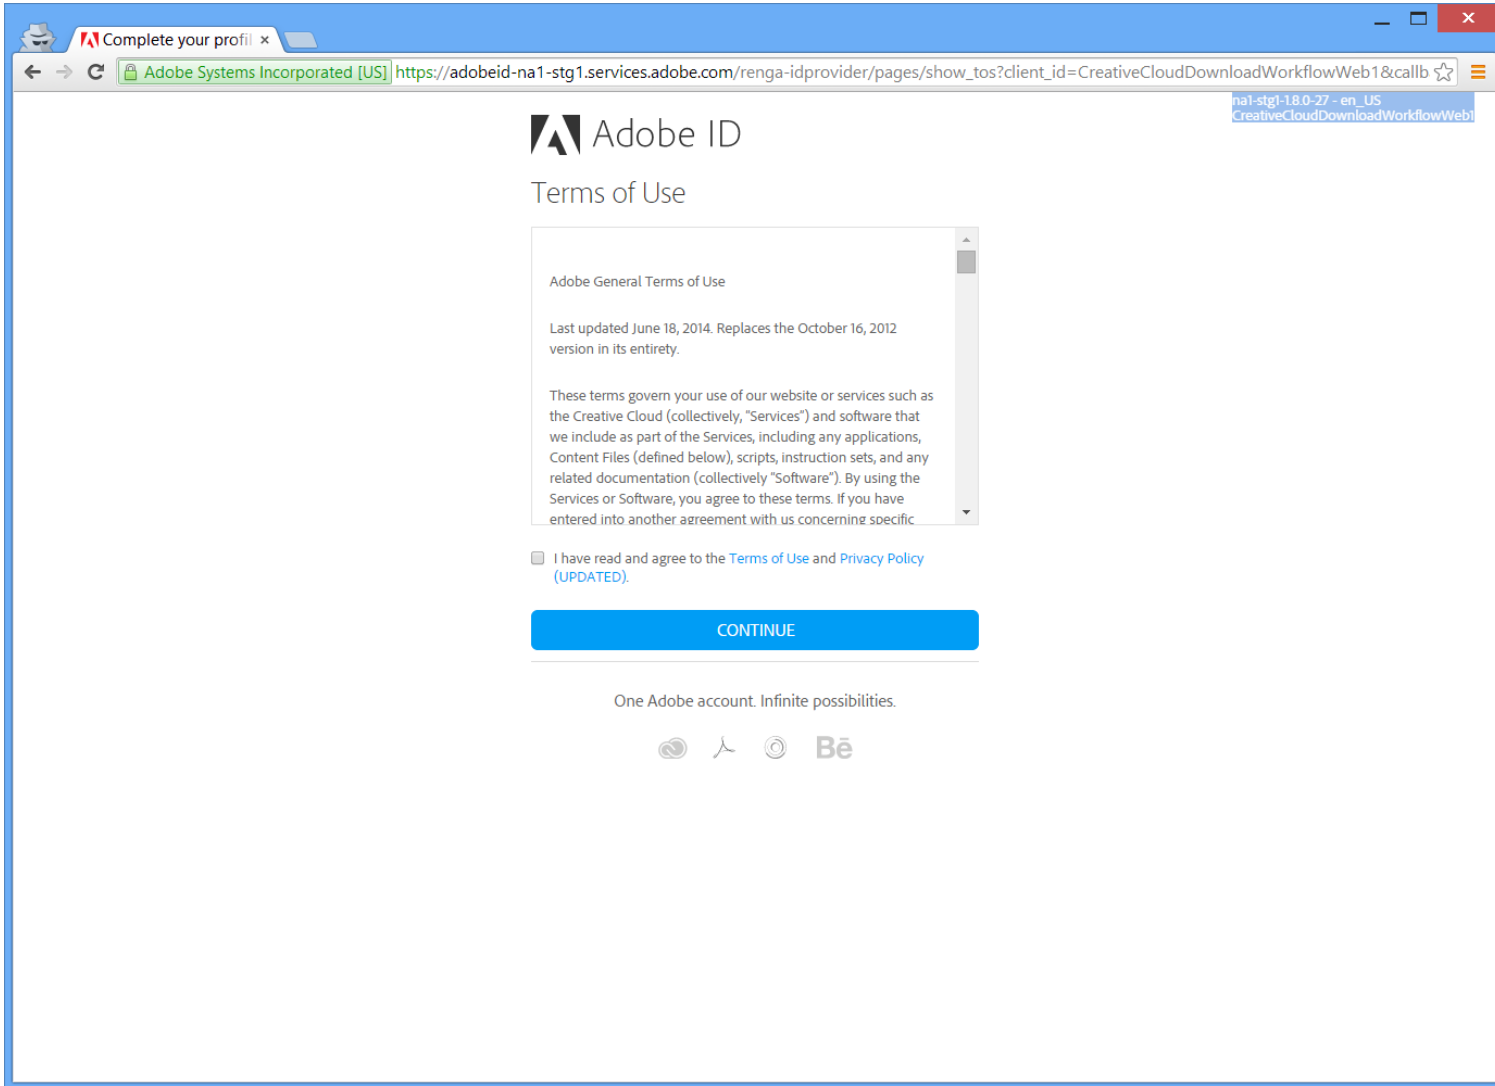

The screenshot shows a web browser window with the URL <https://stage.adminconsole.adobe.com/invitation/Z1KK954BH969H7AB55XBNADTHW?locale=en-us>. The page features the Adobe logo in the top right corner and a heading "Join the Creative Cloud" with the subtitle "Adobe Value Incentive Plan".

1. Signed in as Sarabjit
sarsingh+vballstage@adobetest.com [Sign in with a different Adobe ID](#)
2. Volleyball shop is now part of Adobe's Value Incentive Plan
[Show more](#)
3. **Confirm**
Membership Term
Your VIP membership begins the day you accept your membership, and we set an anniversary so that all your subscriptions renew on the same date. The anniversary date is in your confirmation email. Subscriptions are active from when they're added, to the day before your anniversary date. To ensure uninterrupted service, place renewals before this date.
For more information about Adobe's Value Incentive Plan check out the [VIP Program Guide](#)

At the bottom of the main content area is a blue button labeled "Continue to Admin Console".

At the bottom left of the page, there are links for "Terms Of Use", "Privacy Policy", "Cookies", and "Language: English".

CC Admin Console

CC Admin Console

The screenshot shows a web browser window with the URL <https://stage.adobecc.com/starter?locale=en-us>. The page features a navigation bar with 'MENU', 'SEARCH', and a user profile for 'SARABJIT'. The main content area displays a 'Welcome to Creative Cloud' message, a personalized greeting 'Thank you, Sarabjit.', and a motivational message 'It's great to see you here. Let's get started so you can get down to business.' Below this is a 'Creative Cloud' application manager window showing a list of installed and available apps. The 'YOUR APPS' section includes Illustrator CC, InDesign CC, Extension Manager CC, Muse CC, and Photoshop CC. The 'FIND NEW APPS' section lists Acrobat XI Pro, After Effects CC, Audition CC, Bridge CC, Premiere CC, Dreamweaver CC, and Fireworks CC. To the right of the application manager, a 'Here's what's next' section provides three numbered steps: 1. Add new licenses for your team and invite new members. 2. Download Creative Cloud Packager to simplify software installation. 3. Easily manage your Creative Cloud licenses by clicking on the Get Started button below. A blue 'Get Started' button is located at the bottom of this section. At the bottom of the browser window, there is a footer with links for 'Help', 'Terms of Use', 'Privacy Policy', 'Cookies', and 'Language: English'. A small notification bubble from 'Adobe Systems Incorporated' is visible in the bottom right corner of the browser window.

MENU SEARCH SARABJIT Adobe

Welcome to Creative Cloud

Thank you, Sarabjit.

It's great to see you here. Let's get started so you can get down to business.

Here's what's next

- 1 Add new licenses for your team and invite new members. Don't forget to assign a license to yourself if you'd like to use apps from Creative Cloud as well!
- 2 If you'd like, download Creative Cloud Packager to simplify the software installation process and quickly get your team members set up.
- 3 Easily manage your Creative Cloud licenses by clicking on the Get Started button below.

CC Admin Console

The screenshot displays the Adobe CC Admin Console interface. At the top, there are browser tabs for 'Manage Your Team' and 'Sign in - Adobe ID'. The address bar shows the URL: <https://creative.adobe.com/team/admin/3FCBE69B53F50F410A4C98A7@AdobeOrg>. The page header includes a search bar, the user name 'SARABJIT', and the Adobe logo. Below the header, the page is titled 'Acrobat USA' with a dropdown arrow and an 'Anniversary Date: September 21, 2015'. The main section is 'Named-user Licenses', which includes buttons for 'Assign Users', 'Add Licenses', 'Export CSV', and a search bar. On the left, there is a sidebar with 'Admin Tools' and 'Support' sections. The main content area features a table with columns for 'Name', 'Product', and 'Status'. The table lists various users and their license statuses, including 'Active', 'Invitation sent', and 'Available'. Each row also has a small 'X' icon for removal.

MyPlan view for team user

The screenshot shows a web browser window with the Adobe ID account page. The browser's address bar shows the URL <https://accounts.adobe.com/en/plans>. The page header includes the Adobe ID logo, a search bar, and the user's name Sarabjit Singh. A navigation bar below the header contains icons for Overview, Plans & Products, Account, Security & Privacy, Communication, and Profile. The main content area is titled "Plans & Products" and is divided into two columns. The left column, titled "Plans", features a red Creative Cloud icon and the text "Creative Cloud for teams" with a sub-note: "Contact your team administrator to make changes to your team membership." The right column, titled "Products", contains three sections: "View your products" with a blue link, "Order History" with a blue link "View your orders", and "Hardware" with a blue link "Learn More about Ink & Slide".

Admin removes a delegate

The screenshot shows the Adobe Admin Console interface for managing licenses. The main content area is titled "Named-user Licenses" and contains a table with columns for Name, Product, and Status. A modal dialog is open over the row for "Singh, Sarabjit" (sarsingh+team2@adobetest.com) with an Acrobat Pro DC license, asking "Remove user from this license?" with "Cancel" and "Remove user" buttons.

Name	Product	Status
acro, sarabjit sarsingh+acro@adobetest.com	Acrobat Standard DC Multi Language	Active

Acrobat Deployment Steps Summary

1

Download Acrobat DC installer bits

2

Use Adobe Customization Wizard DC for customizations
(This is an optional step)

3

Deployment

These steps are detailed in the subsequent slides

You can view the deployment help page here: http://www.adobe.com/go/acro_cct_deployment

Step 1 – Download Acrobat DC bits

- Before you start the download, you may want to go through System Requirements here –
 - Acrobat Standard - <https://helpx.adobe.com/content/help/en/acrobat/system-requirements.html?t2>
 - Acrobat Professional - <https://helpx.adobe.com/content/help/en/acrobat/system-requirements.html?t1>
- Next go to Acrobat DC Download Page - <https://helpx.adobe.com/acrobat/kb/acrobat-dc-downloads.html>

Step 1 – Download Acrobat DC bits

MENU SEARCH SIGN IN Adobe

Acrobat Help / Download Acrobat DC (Continuous)

If your organization has purchased Acrobat DC license via ETLA or VIP program you can download the installers from this page.

Read before you download

- Make sure that your system meets the requirements:
 - [Acrobat Standard DC requirements](#)
 - [Acrobat Pro DC requirements](#)

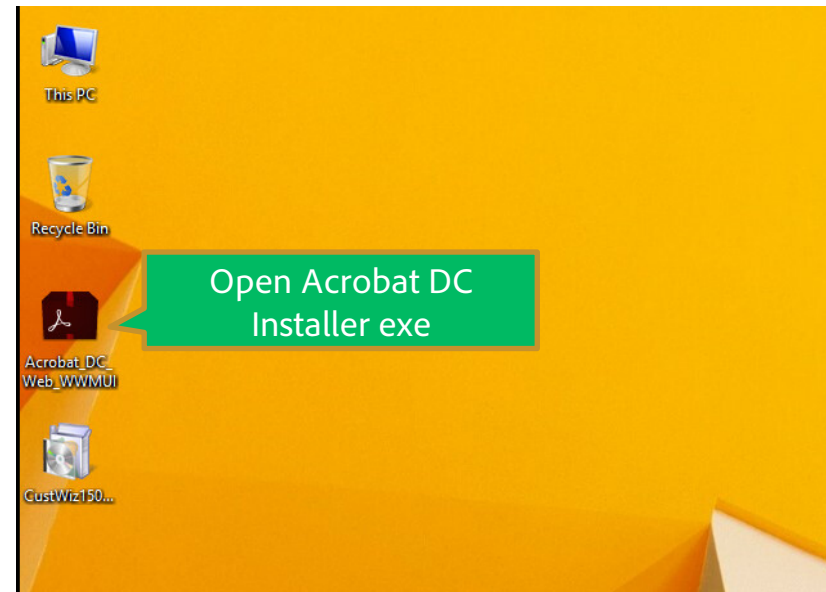

Download Acrobat DC

- [Acrobat Pro DC \(Continuous\)](#)
- [Acrobat Standard DC \(Continuous\)](#)

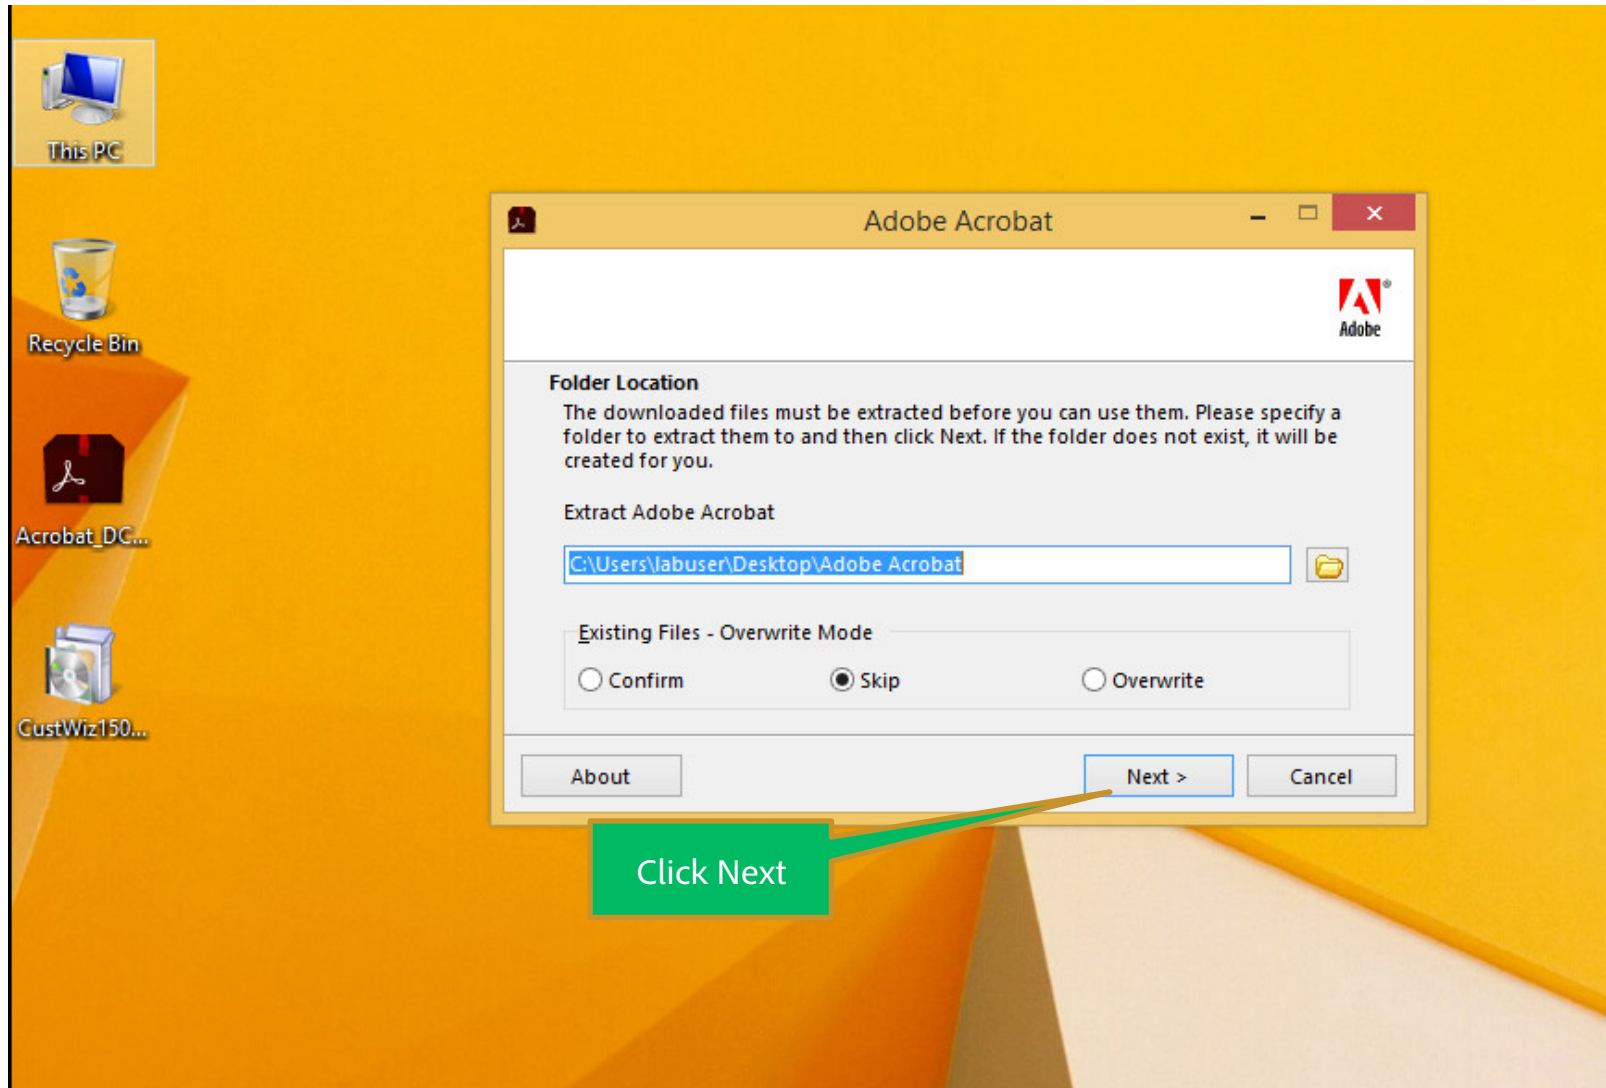

Download Acrobat Pro/
Standard bits from here

Step 1 – Download Acrobat DC bits – Win Only - Extract Acrobat DC bits by running the exe

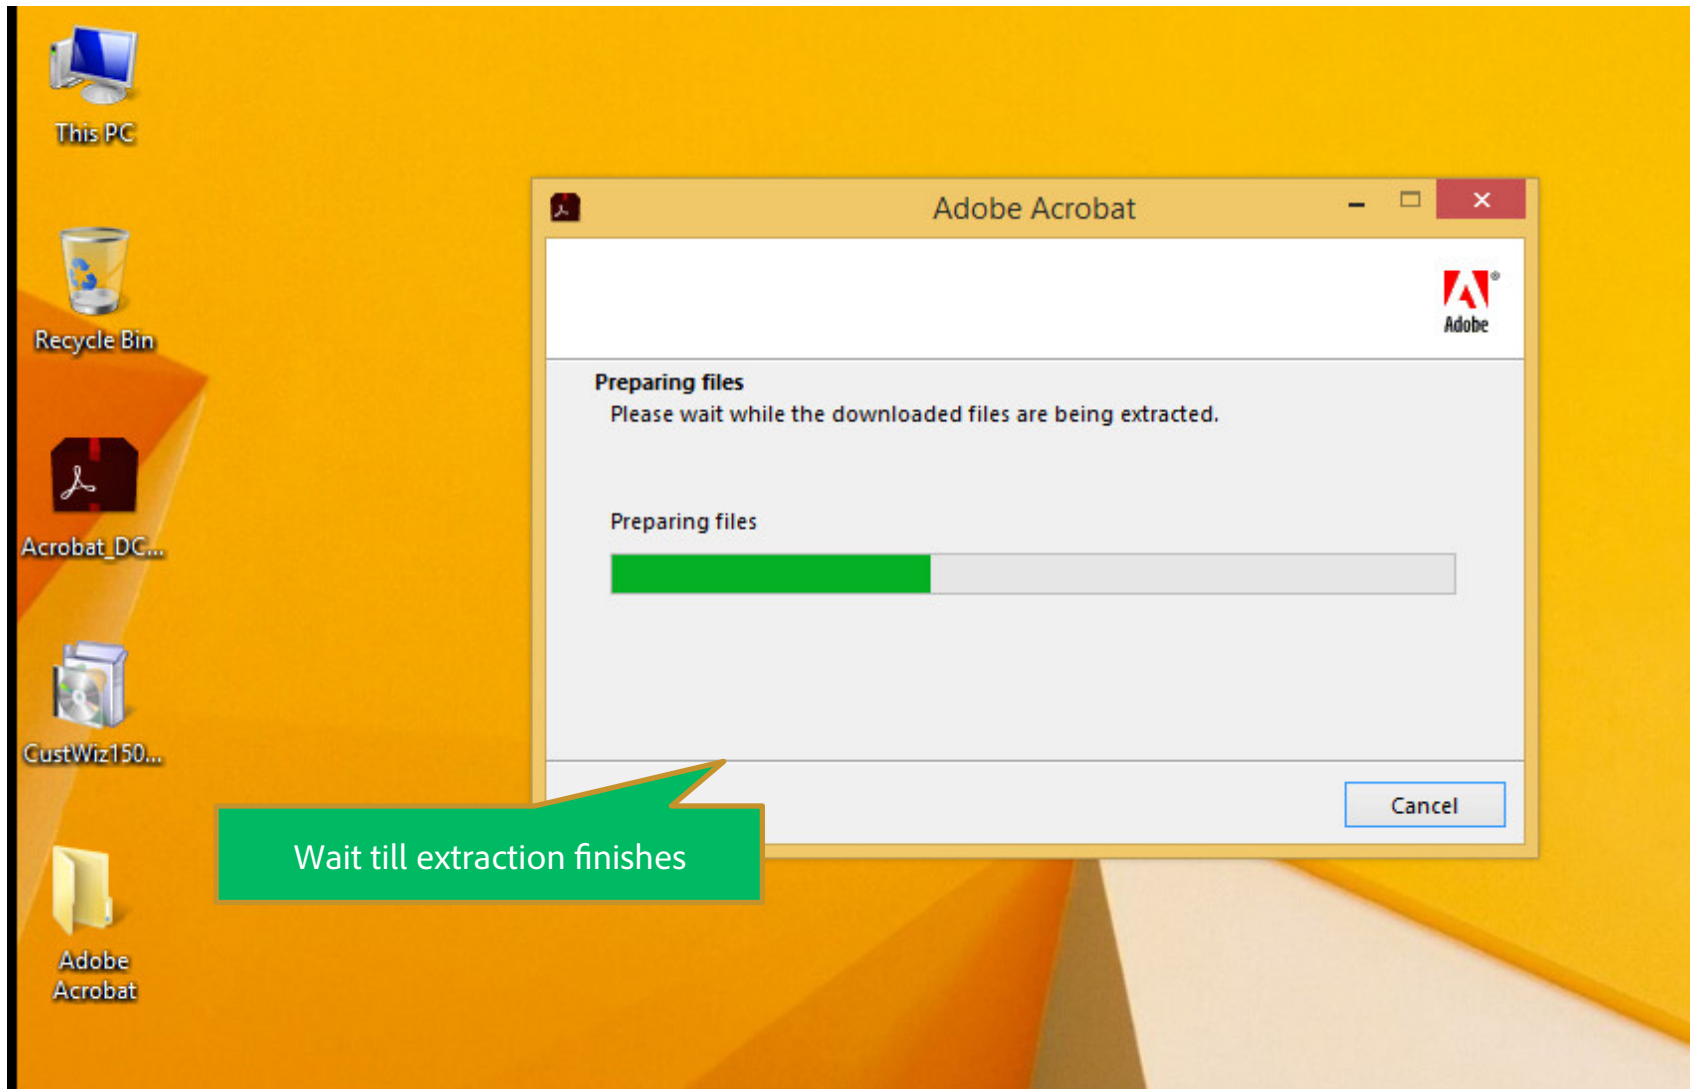

- In Windows only, you will need to run the exe package to extract the installer payload.
- Double Click to run the downloaded Acrobat_DC_Web_WWMUI.exe

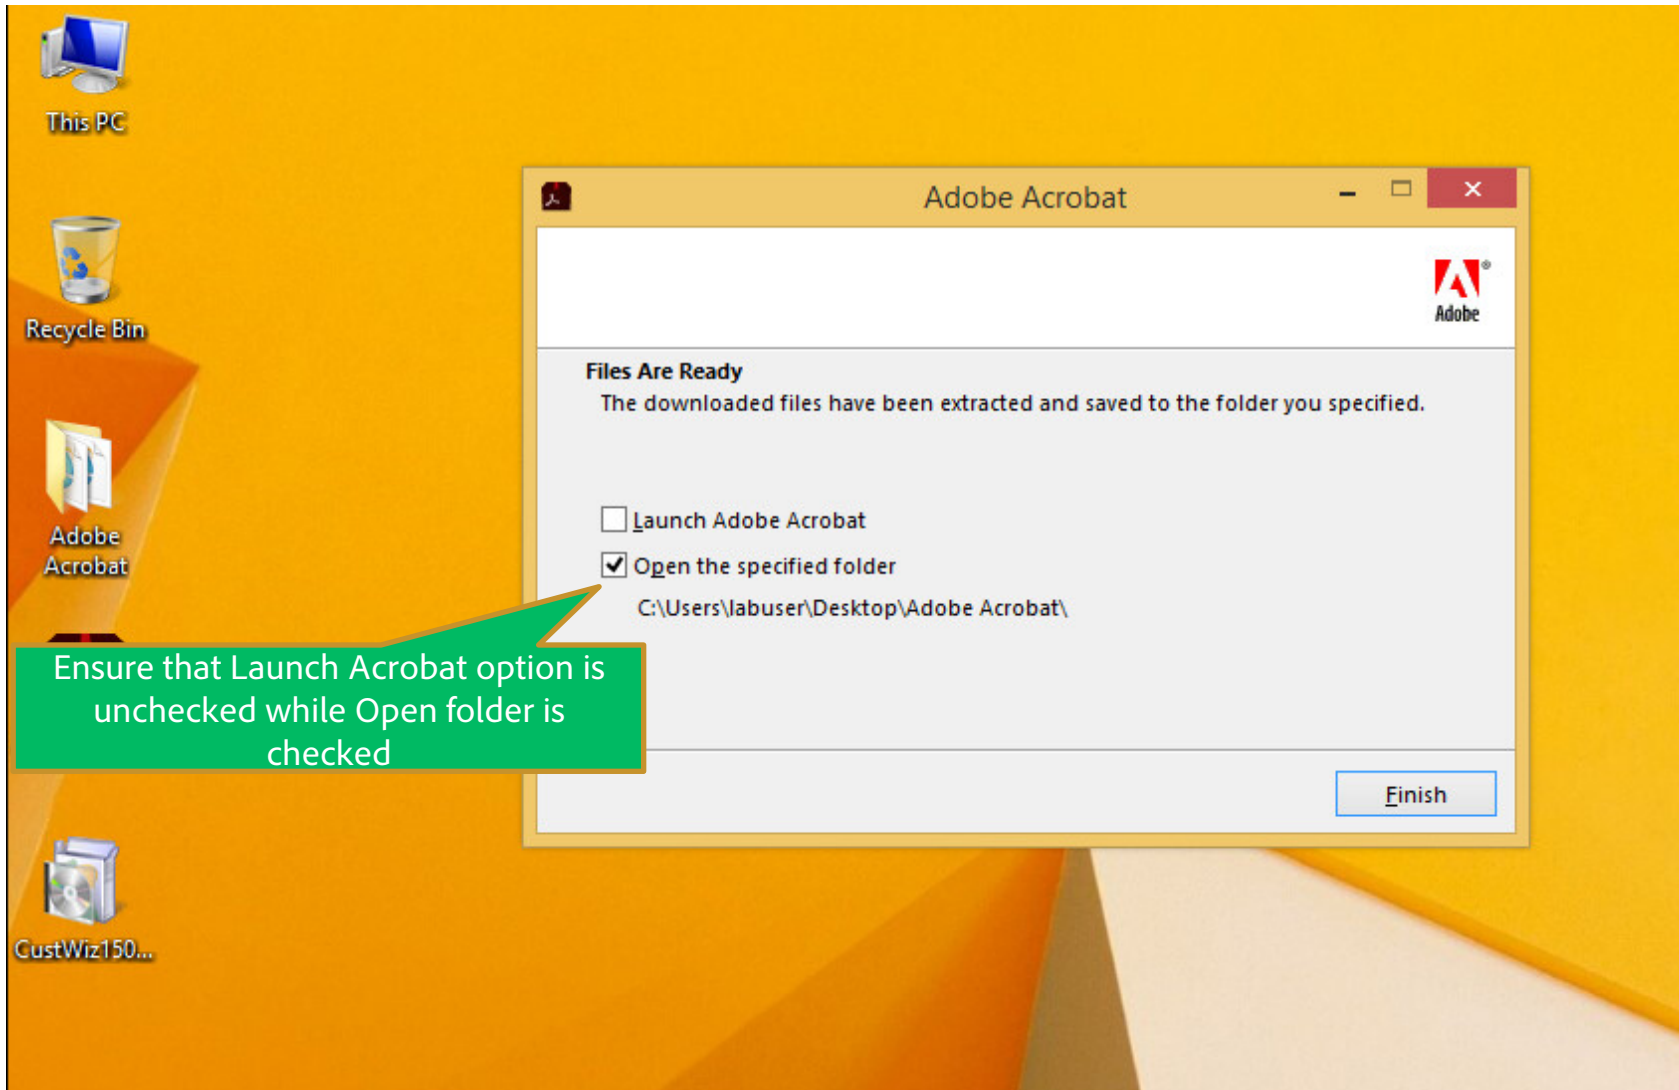

Step 1 – Download Acrobat DC bits – Win Only - Extract Acrobat DC bits by running the exe

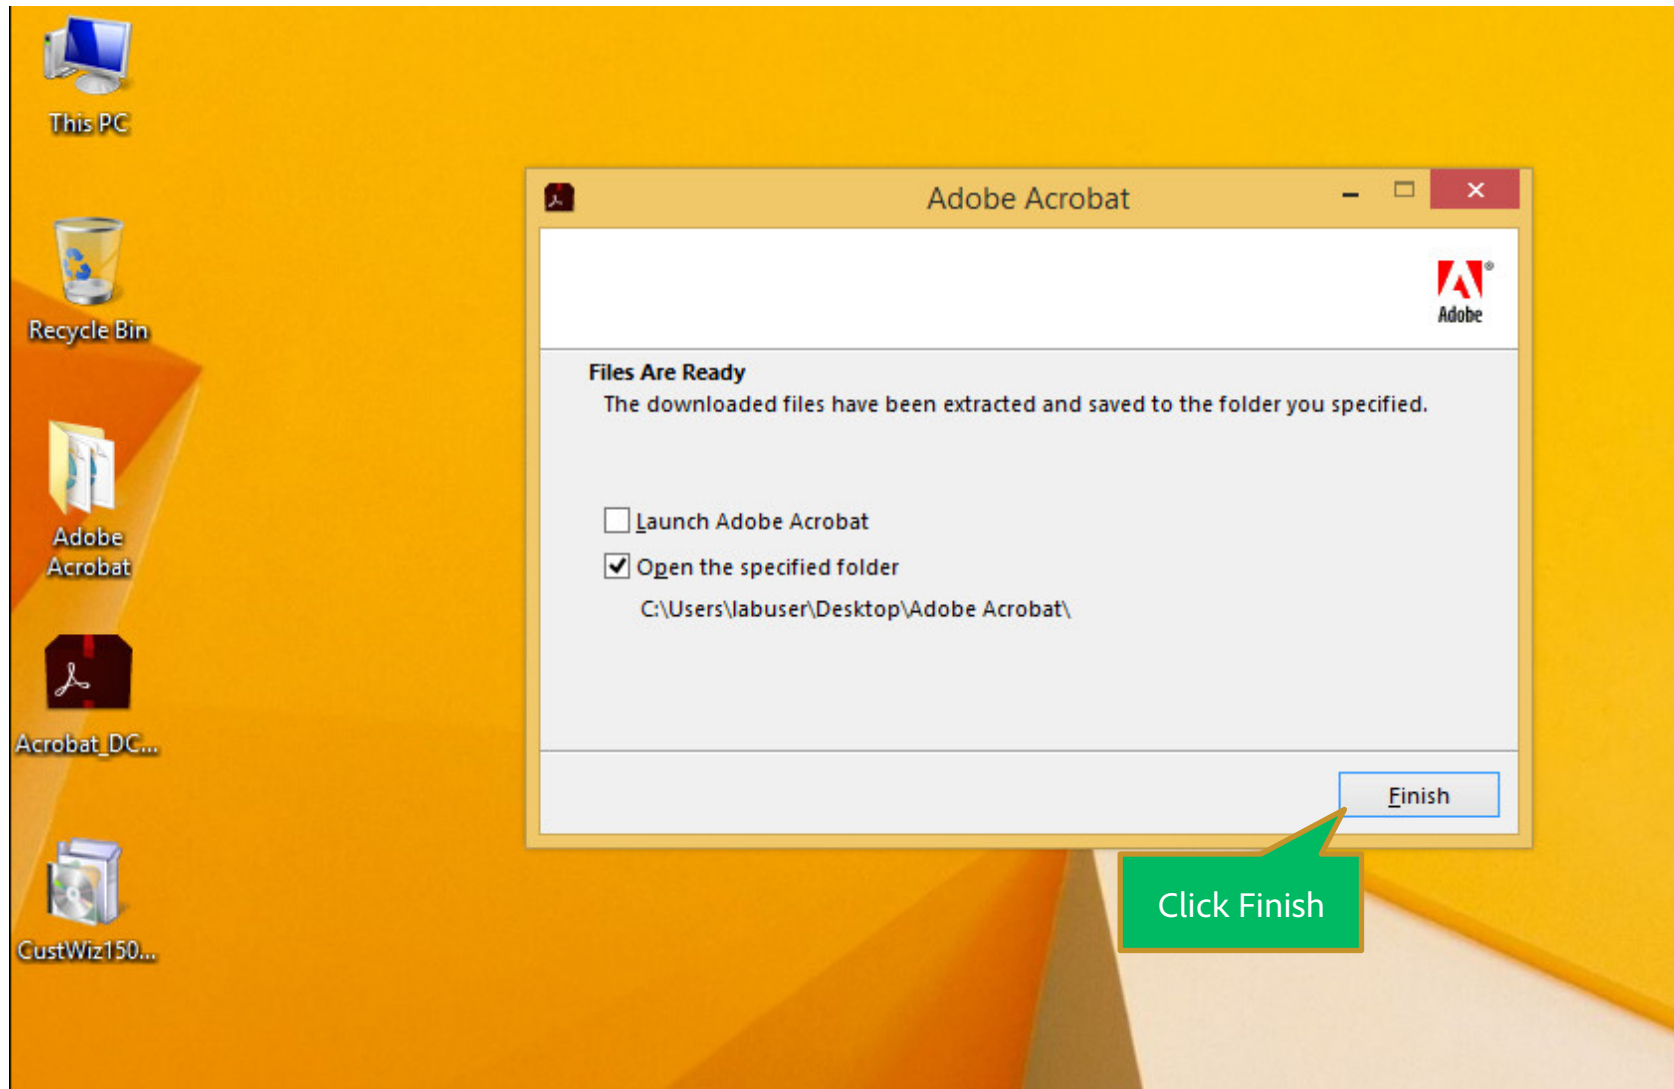

Step 1 – Download Acrobat DC bits – Win Only - Extract Acrobat DC bits by running the exe

Step 1 – Download Acrobat DC bits – Win Only - Extract Acrobat DC bits by running the exe

Step 1 – Download Acrobat DC bits – Win Only - Extract Acrobat DC bits by running the exe

Step - 2 (Optional) - Use Adobe Customization Wizard DC for additional customizations

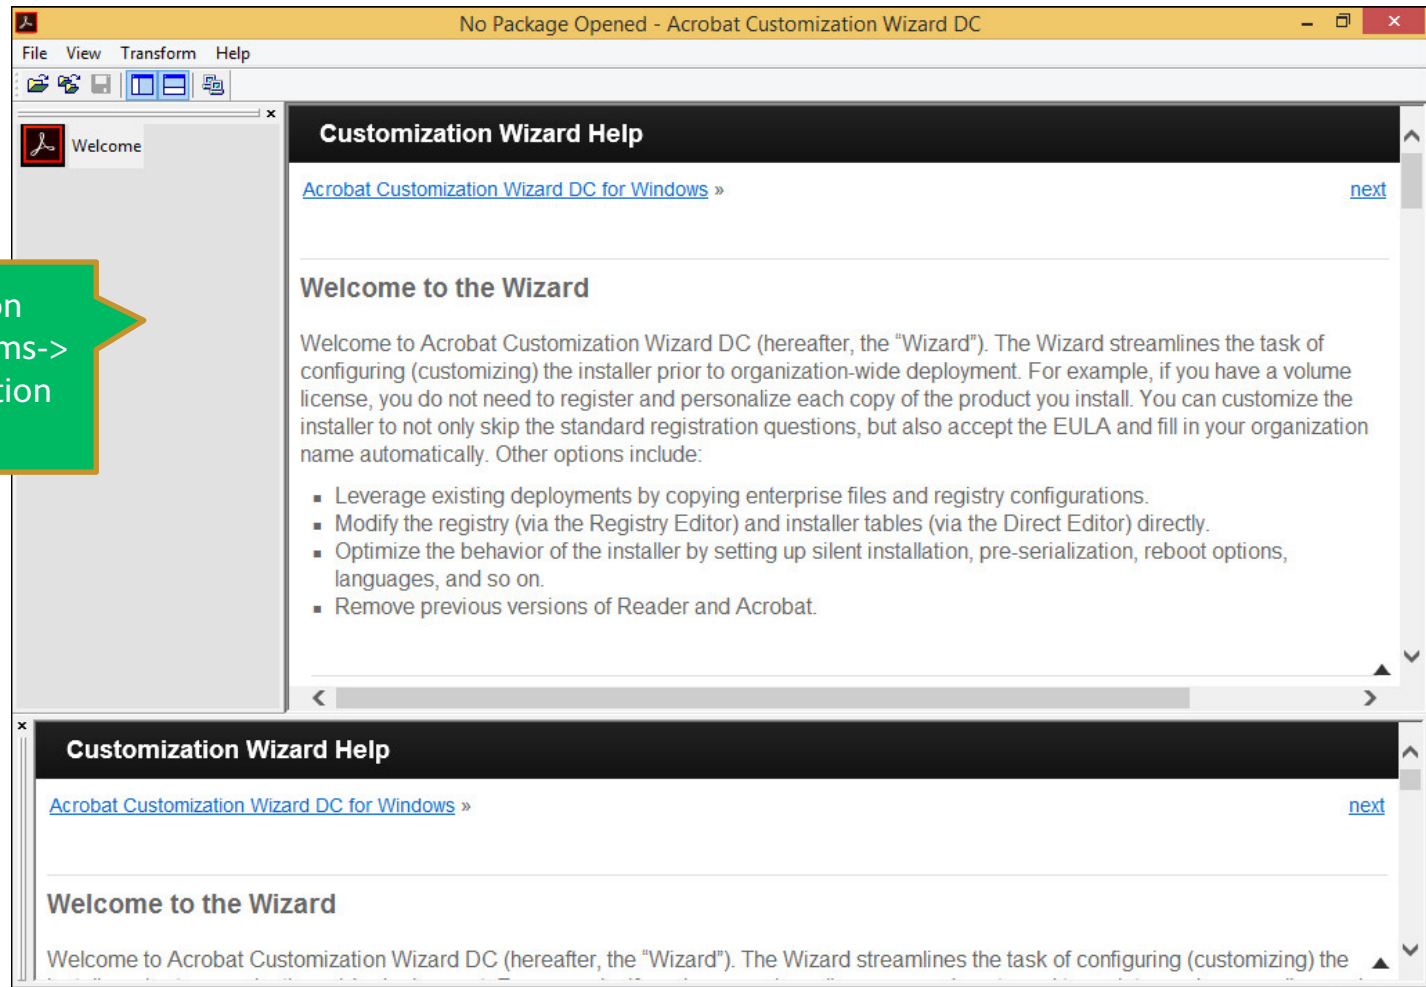

Please note this is an optional step: if you DO NOT need to customize your Acrobat deployment , you can skip this step and move to step 3

- Adobe Customization Wizard DC - This product gives Information Technology (IT) administrators the ability to customize the installation of Acrobat products prior to deploying the applications across their organizations.
- You can get it here –
 - Win : <http://www.adobe.com/support/downloads/detail.jsp?ftpID=5892>
 - Mac : <http://www.adobe.com/support/downloads/detail.jsp?ftpID=5893>
- Customization Wizard documentation - <http://www.adobe.com/go/acrobatwizard>

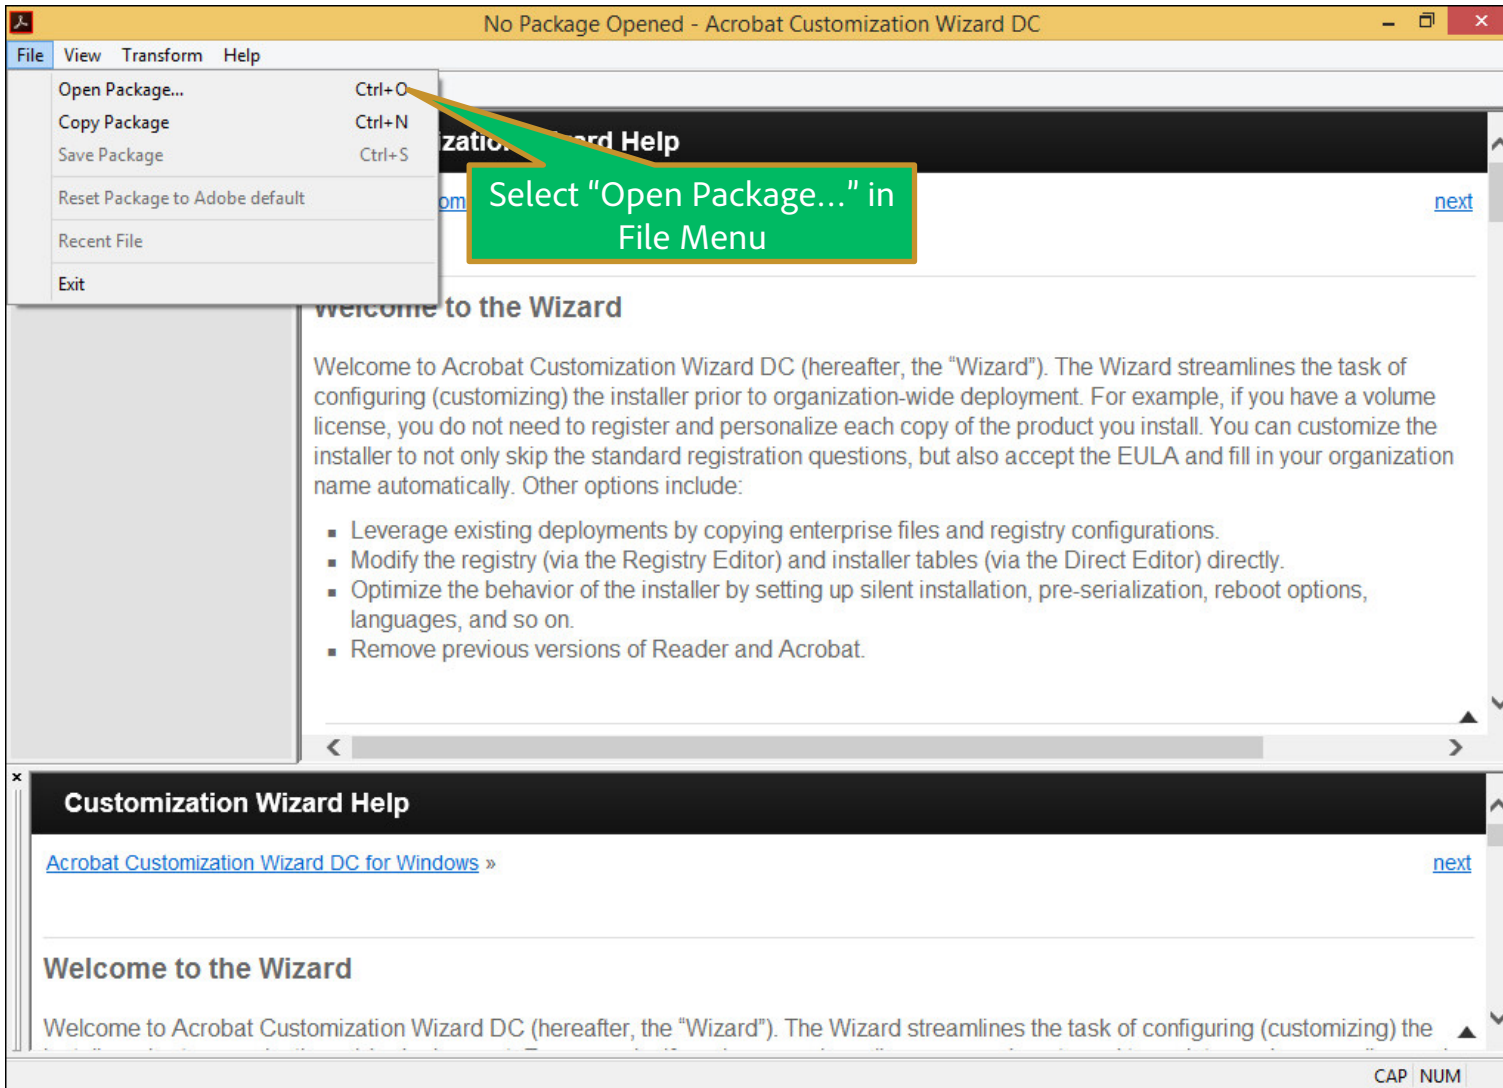

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

Download and install the wizard. Launch it from Programs menu in Windows Start menu.

Run Customization Wizard from 'Programs-> Acrobat Customization Wizard DC'

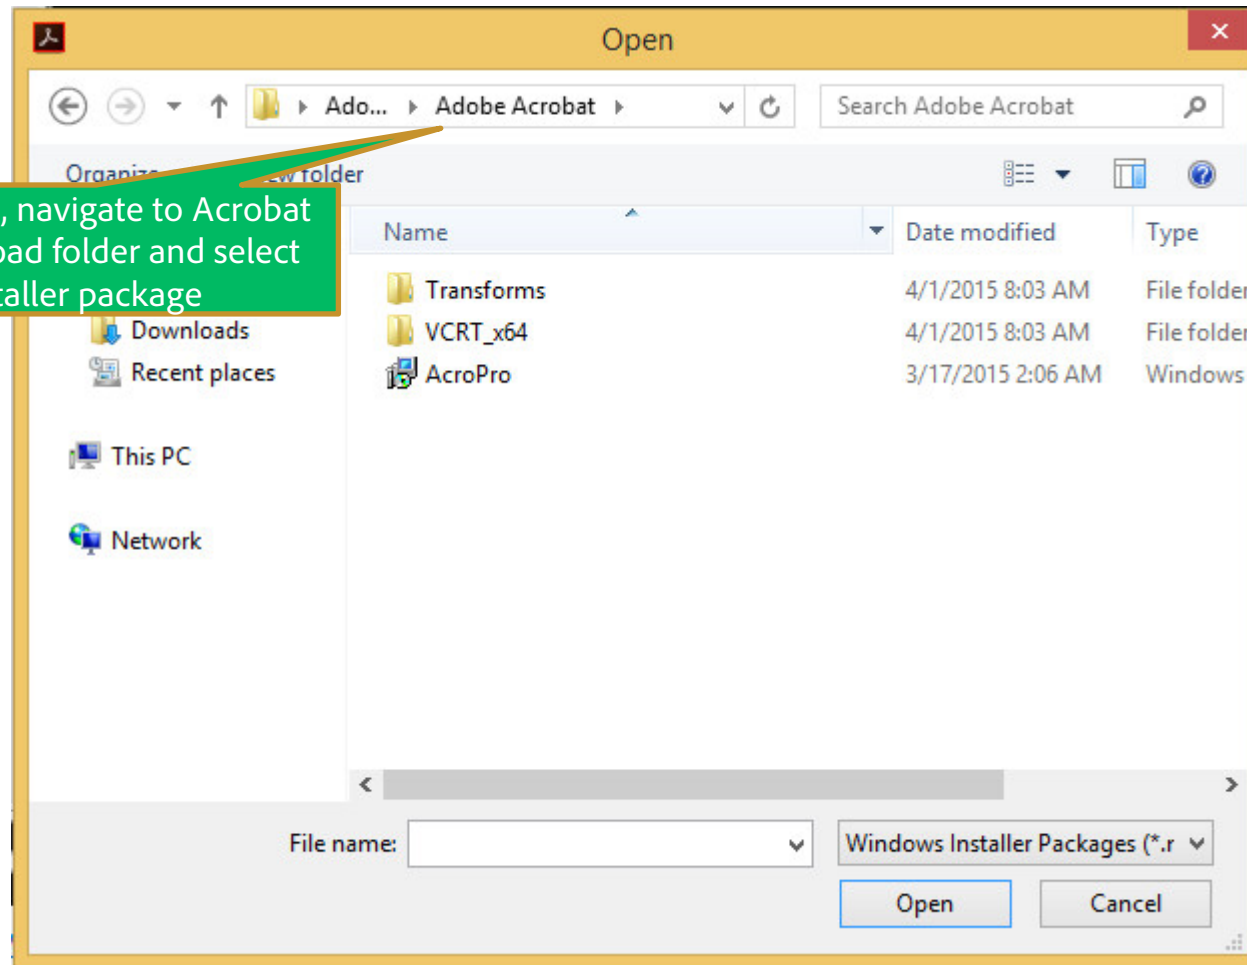

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

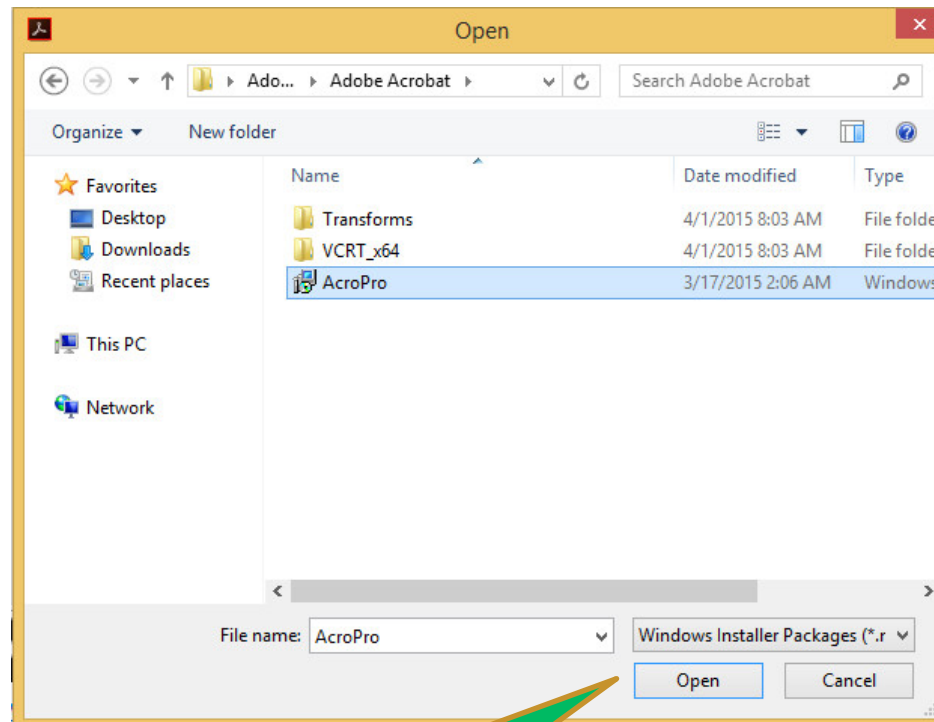

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

In Open menu, navigate to Acrobat Installer payload folder and select the installer package

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

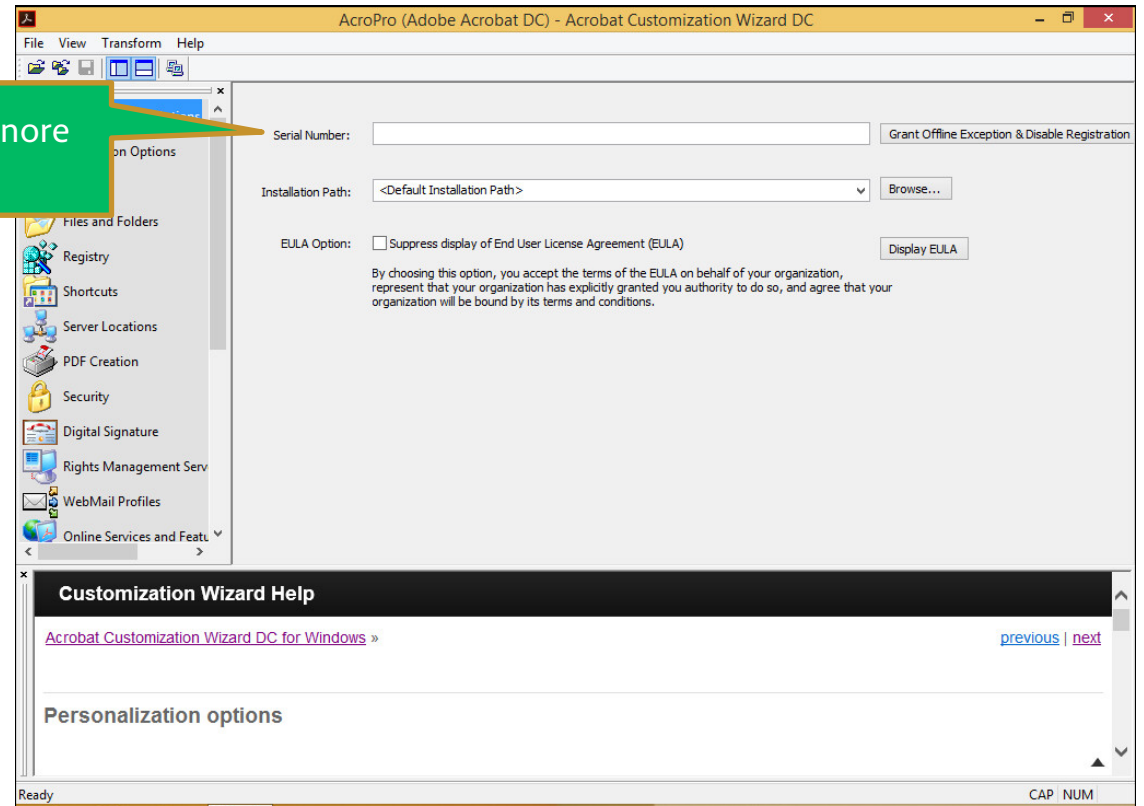

Click Open

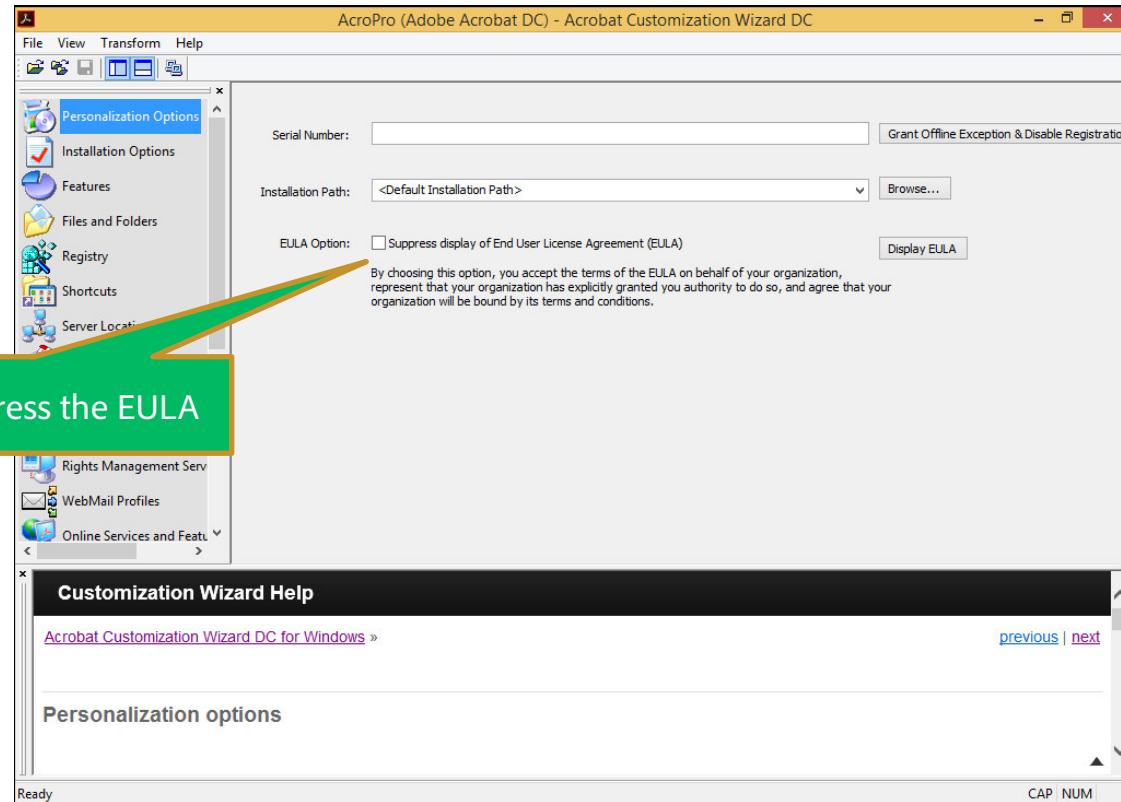

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

Acrobat VIP customers can ignore the serial number field

Now you can continue with options in wizard which you want to customize.
For more info on wizard see - <http://www.adobe.com/go/acrobatwizard>

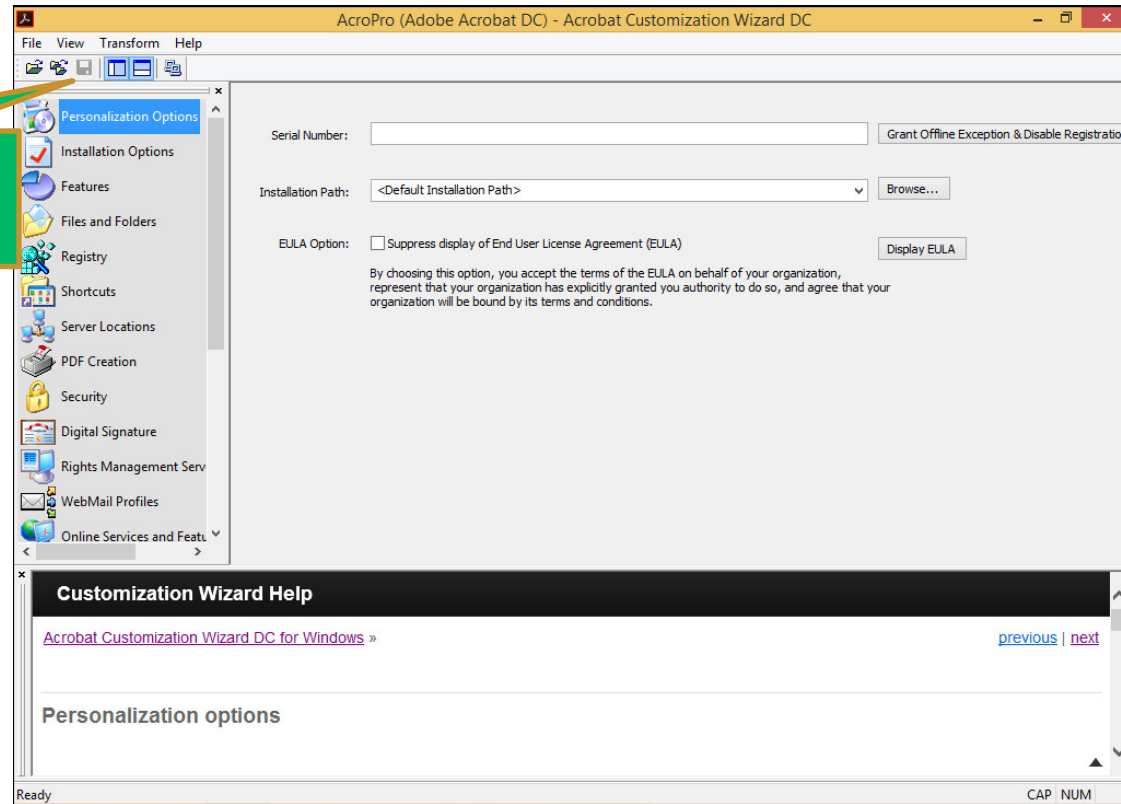

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

Step 2 - (Optional) Win – Use Adobe Customization Wizard DC for additional customizations

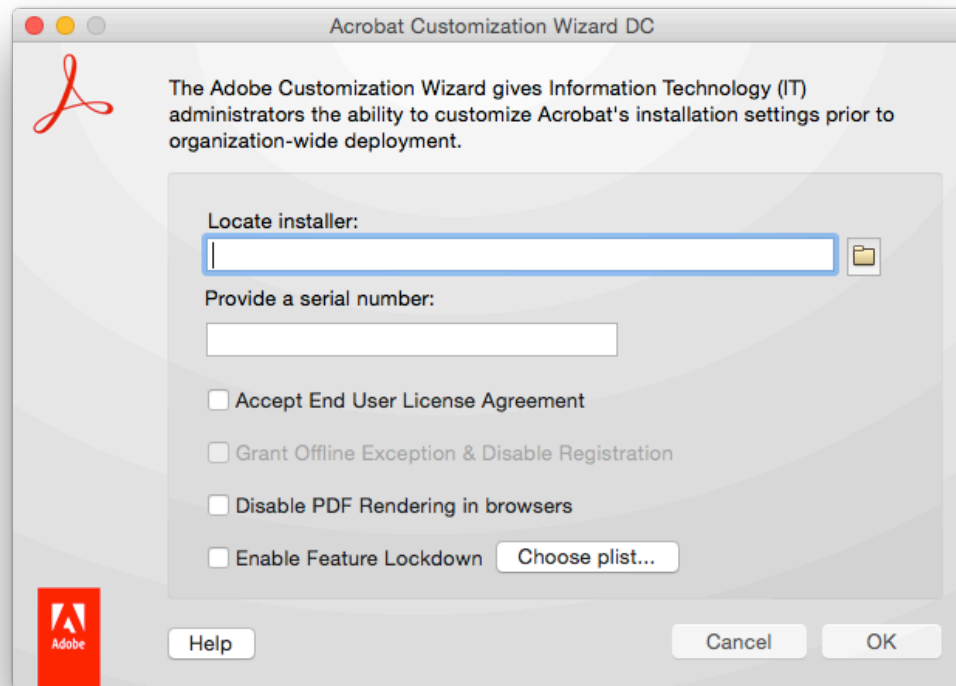

When customizations are done, click Save button and close wizard

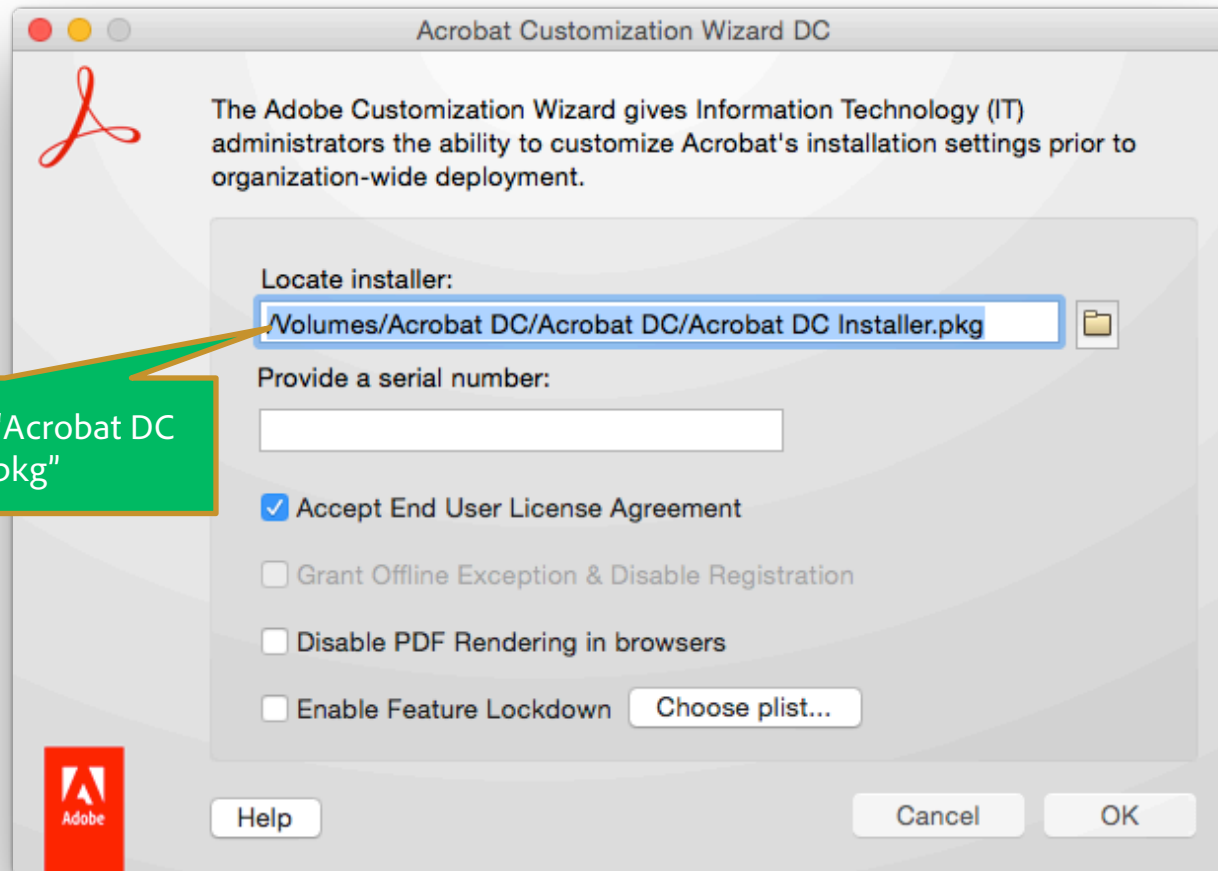

You can now Deploy the custom installer as explained in Step 3

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

- On Mac – Download Customization Wizard DMG
- Mount the DMG and copy “Acrobat Customization Wizard DC.app” to “/Applications”
- Now run the application – “/Applications/Acrobat Customization Wizard DC.app”

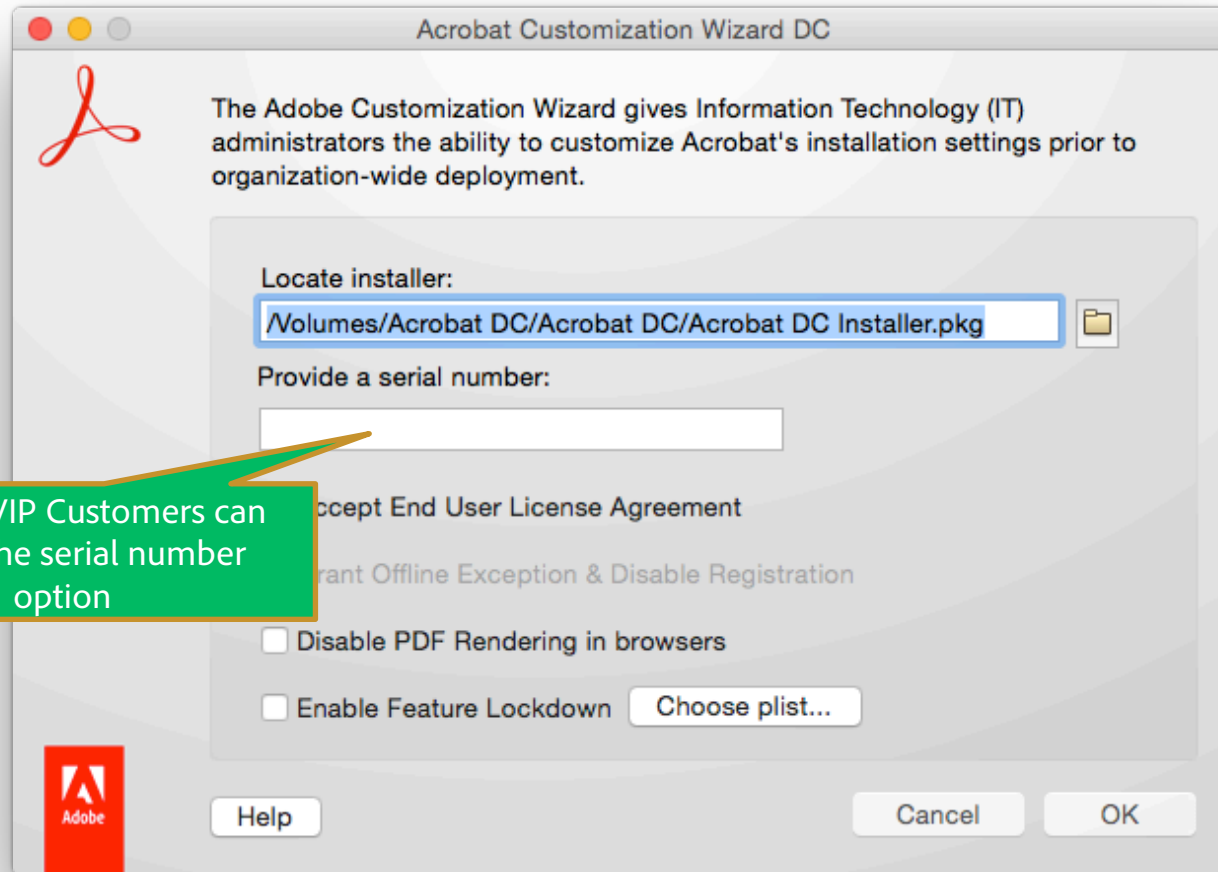

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

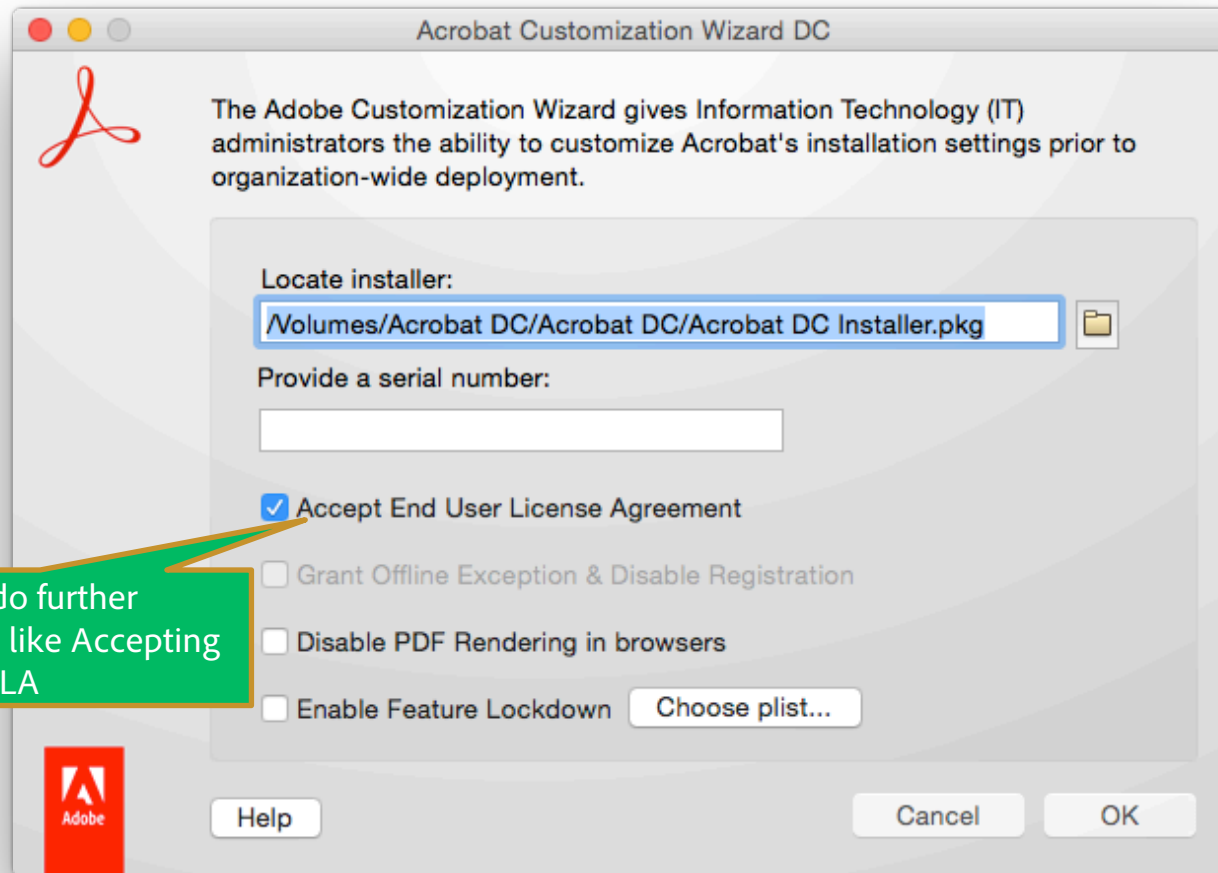

Provide path to "Acrobat DC Installer.pkg"

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

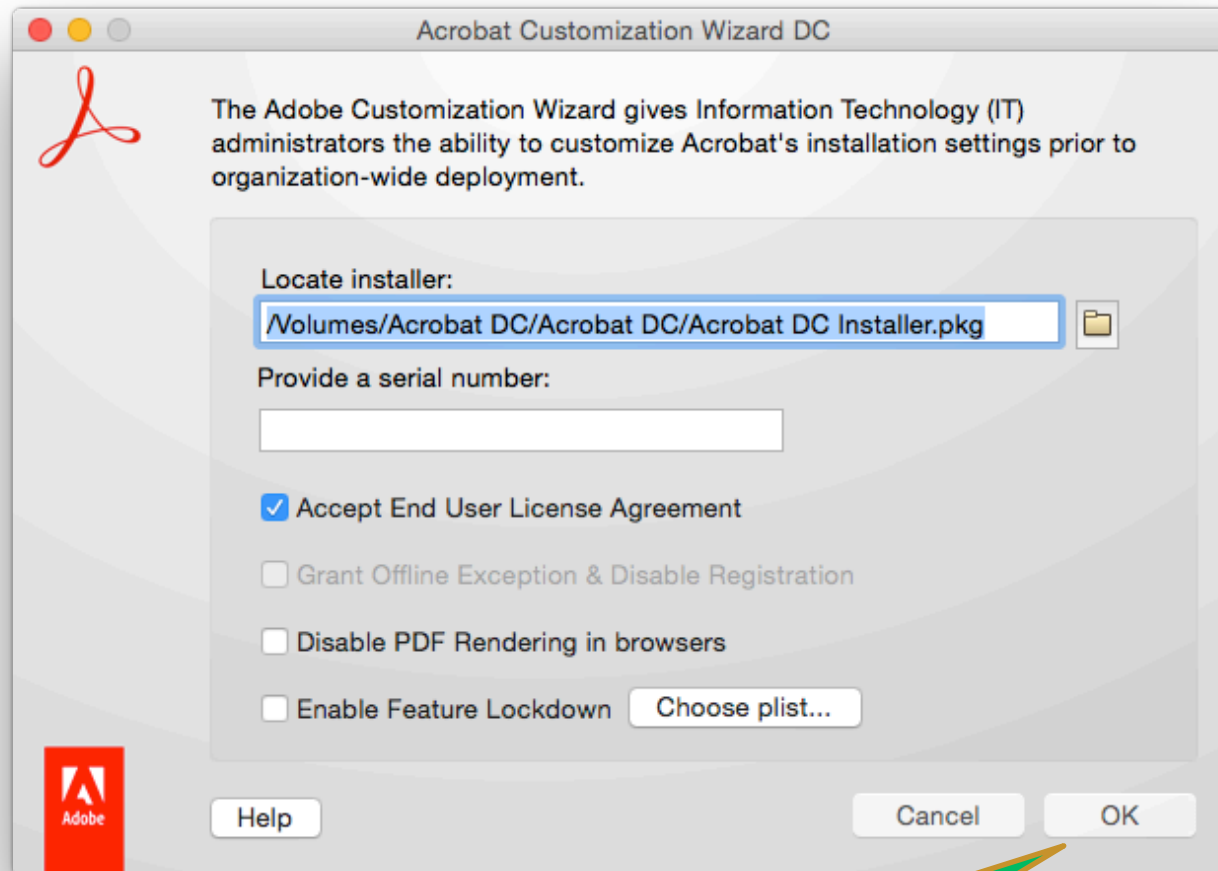

Acrobat VIP Customers can ignore the serial number option

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

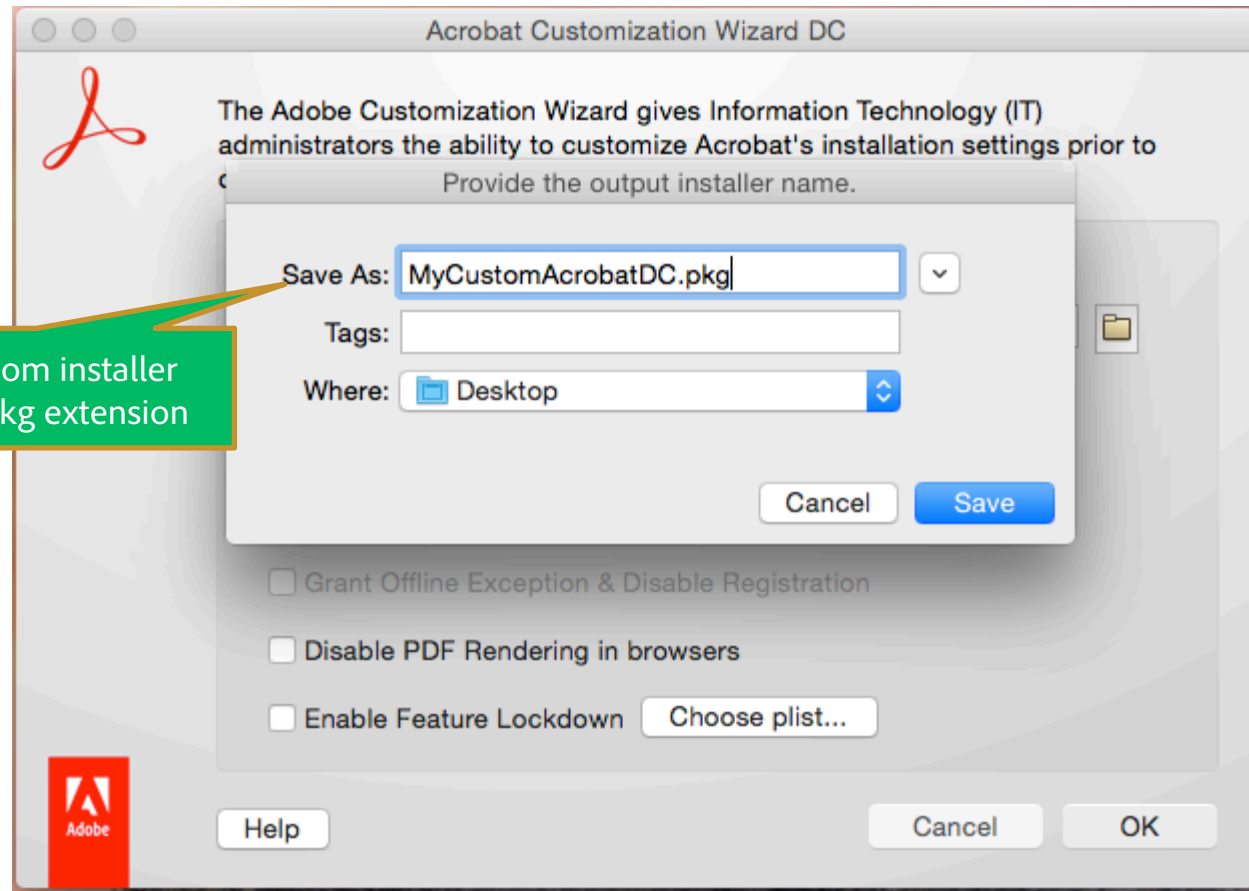

You can do further customizations like Accepting EULA

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

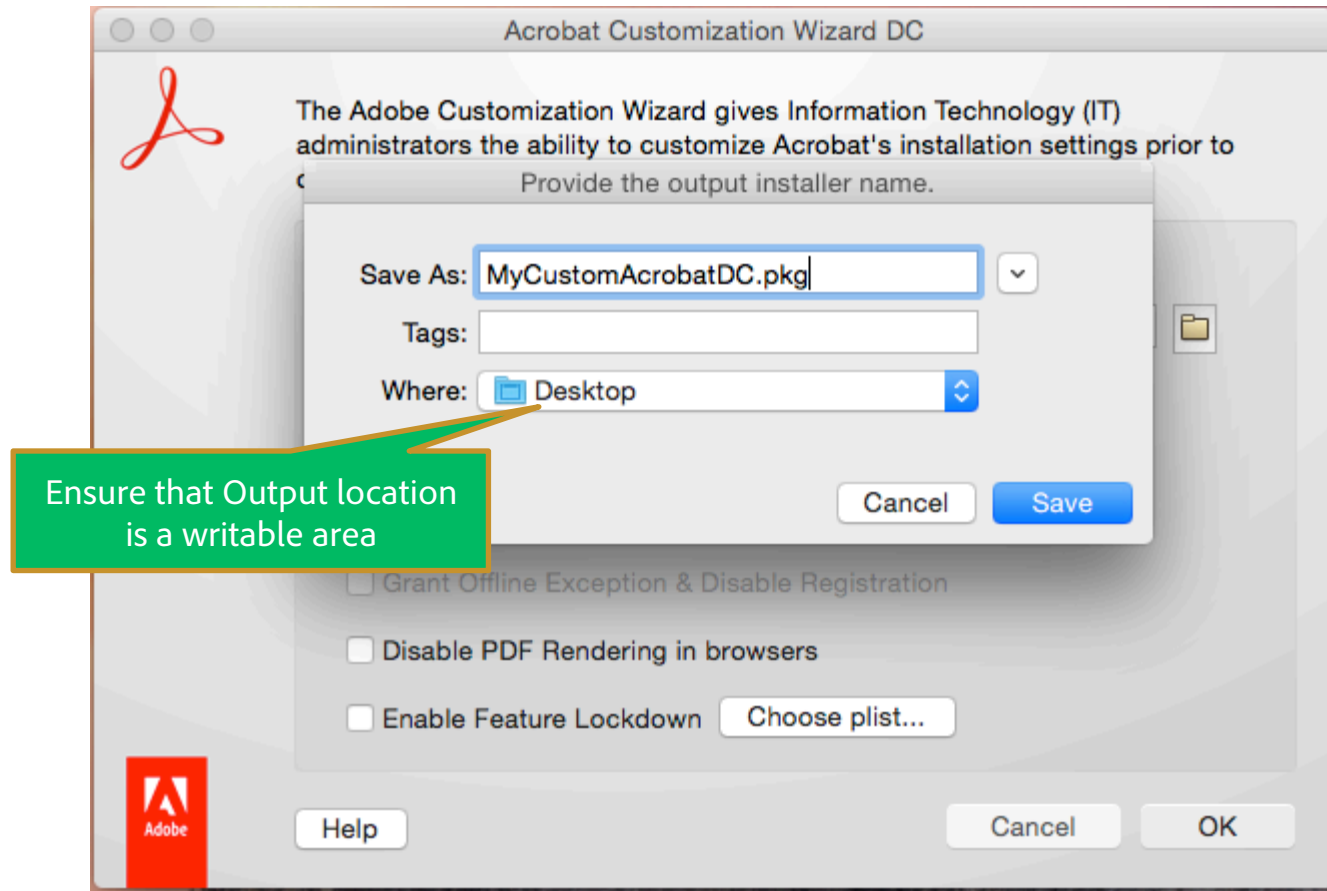

Click OK when done

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

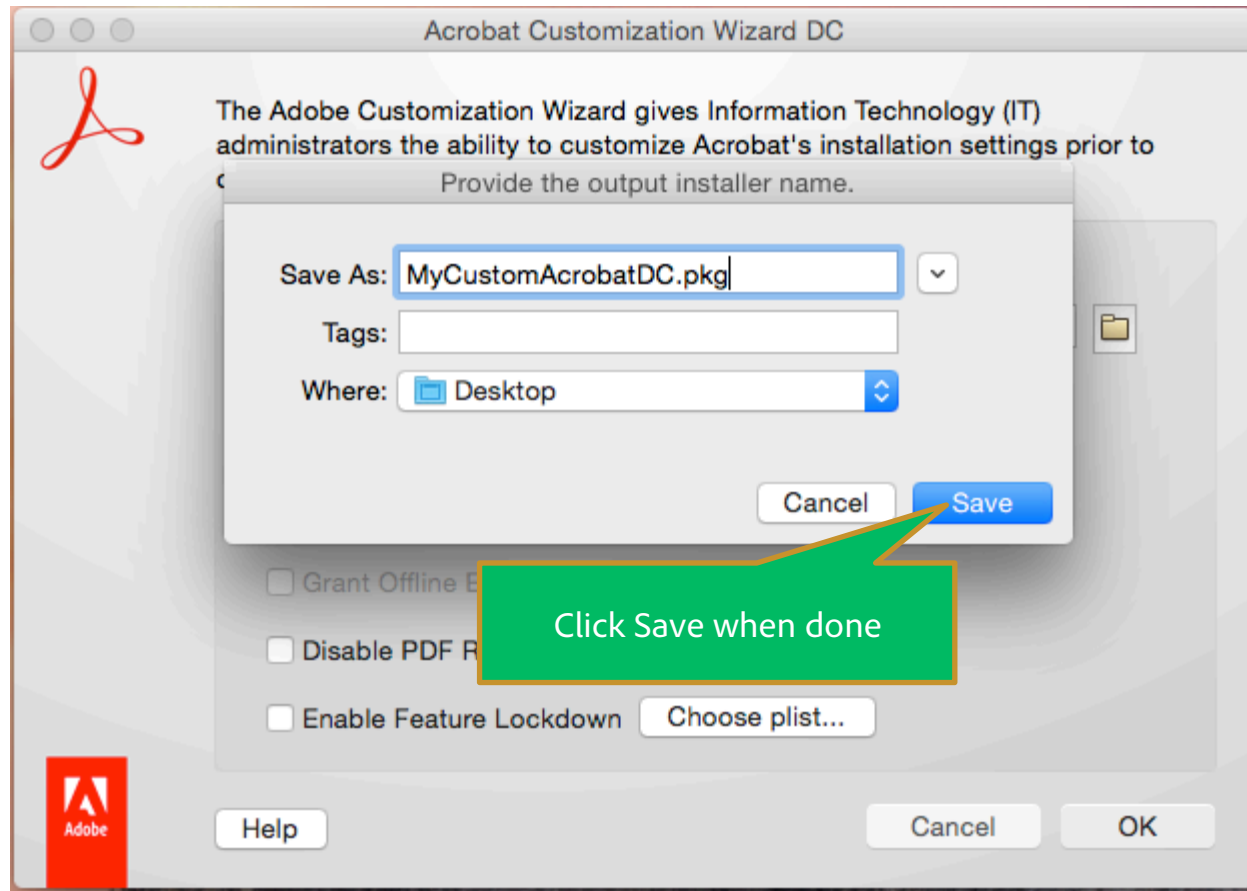

Provide custom installer name with .pkg extension

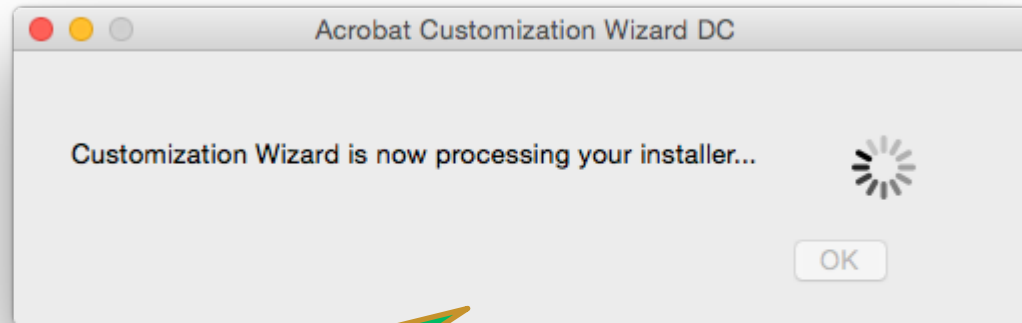

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

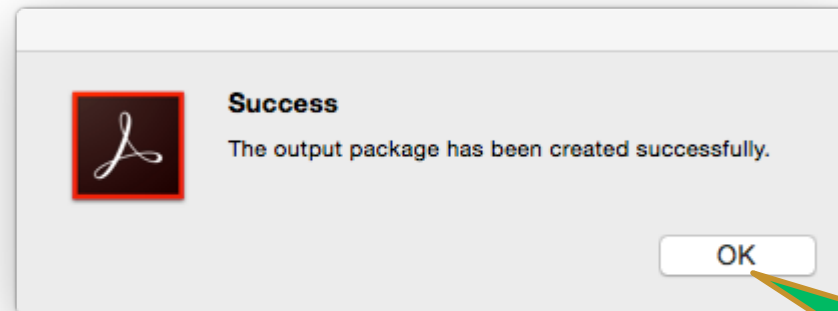

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

Progress screen appears. Wait for a while till process is complete

Step 2 - (Optional) Mac – Use Adobe Customization Wizard DC for additional customizations

Once complete you will see Success dialog. Click OK to close the wizard

You can now Deploy the custom package as explained in Step 3

Step 3 – Deployment (Windows)

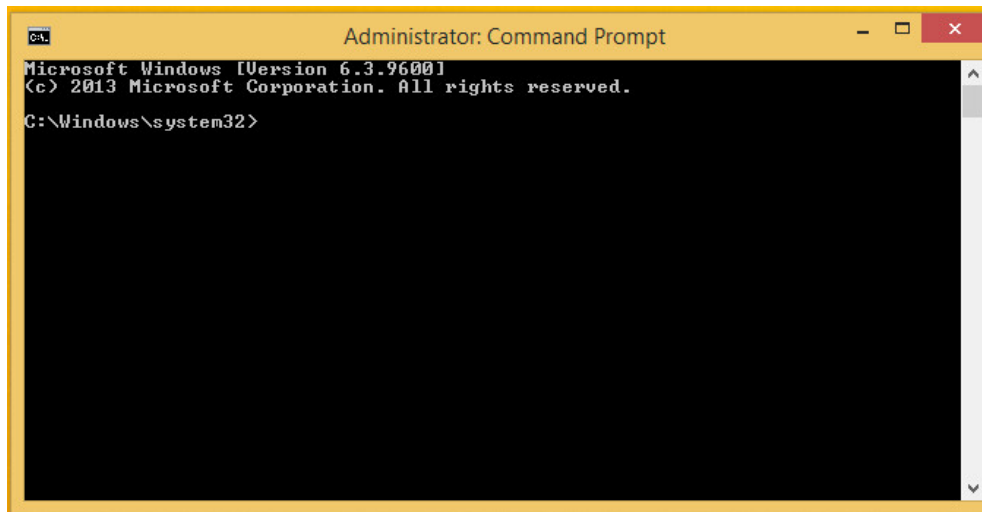

- In this step we will deploy the Windows Installer with the transform on users machine.
- There are two ways to install
 - (a) Command Line mode
 - (b) Using Standard deployment tools like SCCM etc

Please use either option (a) or (b) as per your preferred method of deployment.

These options are detailed in the next slides

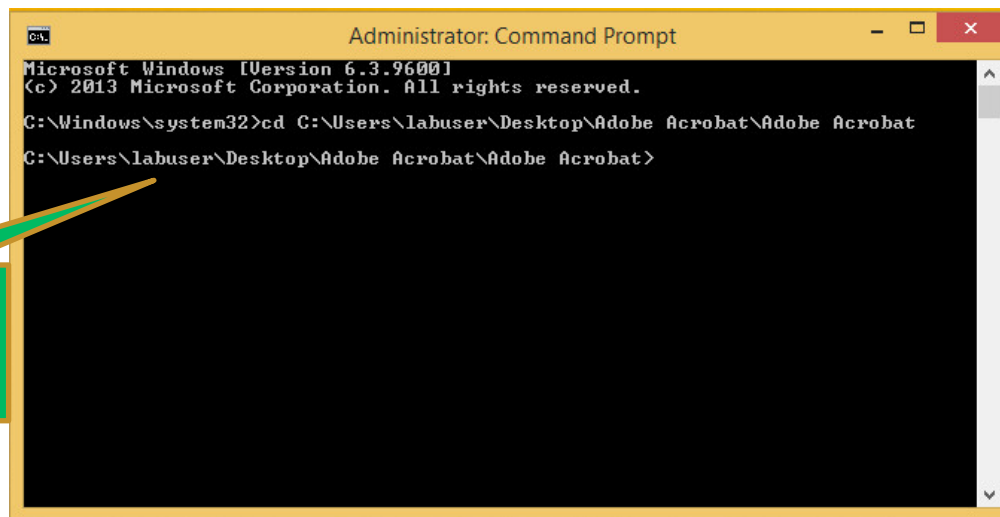

Step 3 – Windows Deployment – a) Command Line install on user's machine

Run Command Prompt in Admin mode

```
Administrator: Command Prompt
Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.
C:\Windows\system32>
```

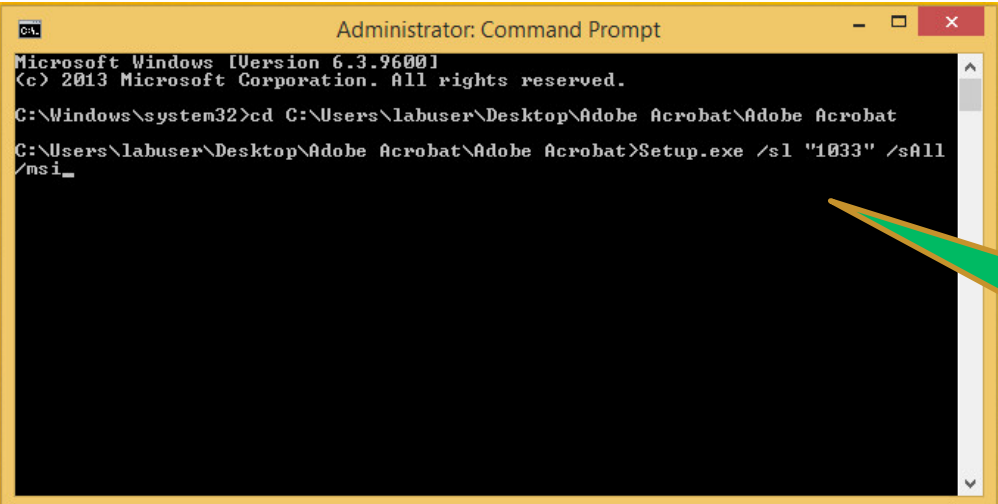

Step 3 – Windows Deployment – a) Command Line install on user's machine

```
Administrator: Command Prompt
Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.
C:\Windows\system32>cd C:\Users\labuser\Desktop\Adobe Acrobat\Adobe Acrobat
C:\Users\labuser\Desktop\Adobe Acrobat\Adobe Acrobat>
```

Navigate to
Acrobat DC
installer folder

Step 3 – Windows Deployment – a) Command Line install on user's machine

```
Administrator: Command Prompt
Microsoft Windows [Version 6.3.9600]
(c) 2013 Microsoft Corporation. All rights reserved.
C:\Windows\system32>cd C:\Users\labuser\Desktop\Adobe Acrobat\Adobe Acrobat
C:\Users\labuser\Desktop\Adobe Acrobat\Adobe Acrobat>Setup.exe /sl "1033" /sAll
/msi_
```

Run the installer command

Command Line - Setup.exe /sl "[LangCode]" /sALL /msi

Note: This is a silent background installation. To monitor when installation completes see the running msiserver.exe process. Once the running process quits then installation is complete.

Step 3 – Windows Deployment – a) Command Line install on user’s machine

- [LangCode] is the numerical Acrobat Launch language code based on the following data:
 - 2052=Chinese Simplified
 - 1028=Chinese Traditional
 - 1029=Czech
 - 1030=Danish
 - 1043=Dutch (Netherlands)
 - 1033=English (United States)
 - 1035=Finnish
 - 1036=French (France)
 - 1031=German (Germany)
 - 1038=Hungarian
 - 1040=Italian (Italy)
 - 1041=Japanese
 - 1042=Korean
 - 1044=Norwegian (Bokmal)
 - 1045=Polish
 - 1046=Portuguese (Brazil)
 - 1049=Russian
 - 1051=Slovak
 - 1060=Slovenian
 - 1034=Spanish (Traditional Sort)
 - 1053=Swedish
 - 1055=Turkish
 - 1058=Ukrainian
 - 1025=English with Arabic support
 - 1037=English with Hebrew support
 - 6156=French (Morocco)

For example, if you pass “1033” in [LangCode], Acrobat launches in English.

Step 3 – Windows Deployment - (b) Using Standard Deployment methods

- In this case we will use Windows installer UI package for admins to:
 - Deploy it on users machine using tools like SCCM etc
 - Placing setup in common location for Direct UI based install on user's machine using setup.exe
- Admin can simply copy the entire installer folder on user's machine and run Setup.exe to start the installation process
- Or, admins can deploy this package using Standard Deployment practices like SCCM to install on user machines

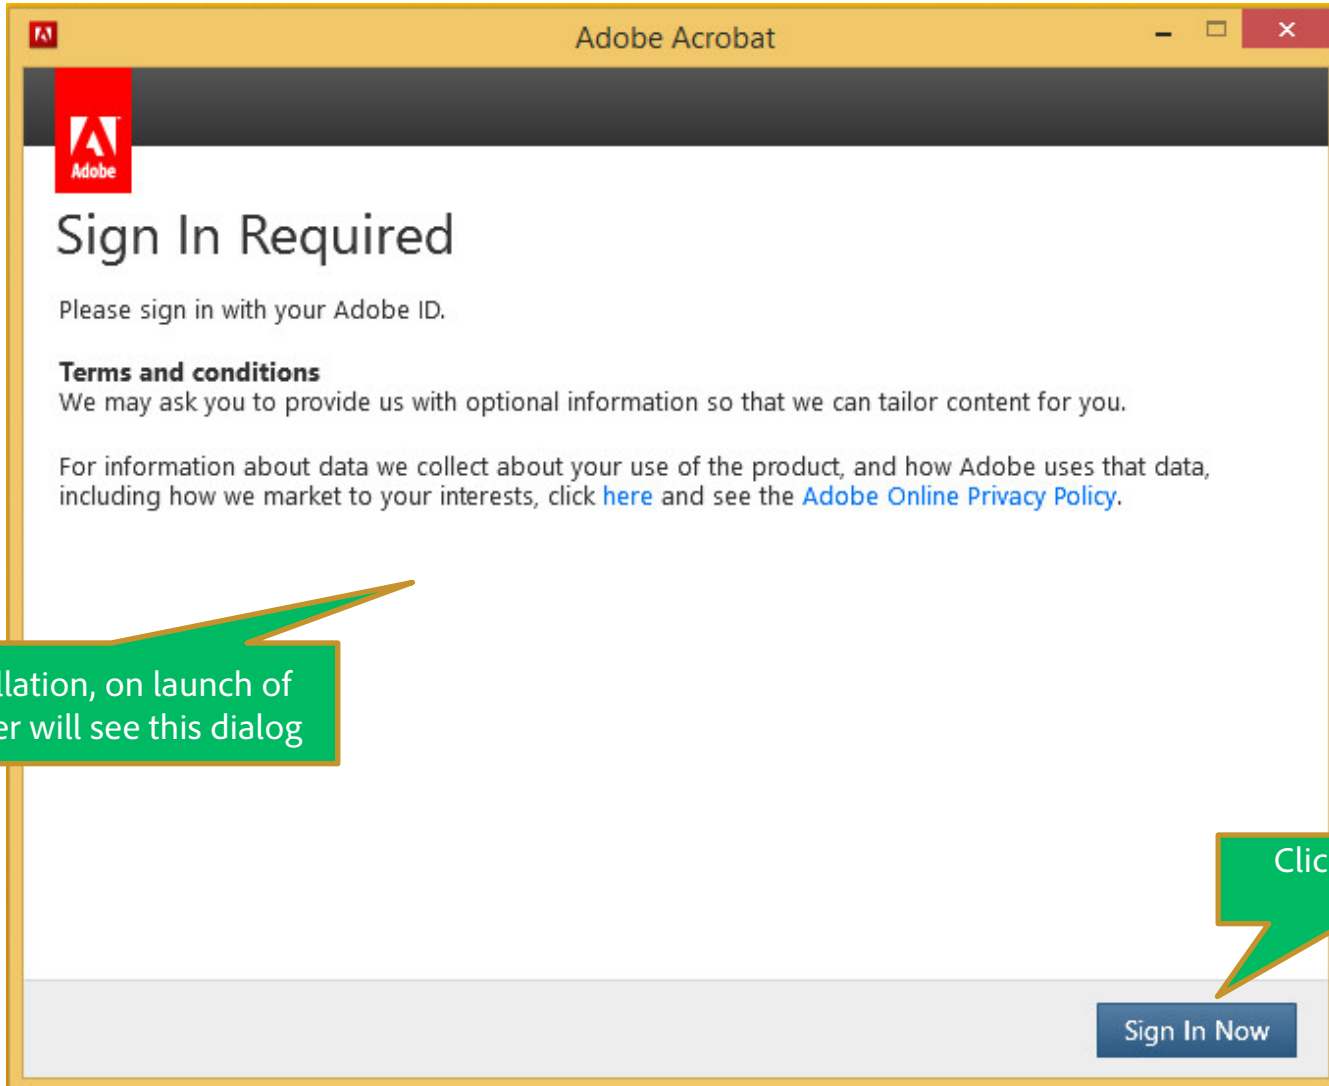

Step 3 - Deployment (MAC)

- In Mac, Acrobat DC Installer is downloaded.
- Admins can simply choose to push (using Apple Remote Desktop) or install it on user's mac machine.
- Apple installer are standard Mac installer packages

That's it!

- You are all set by now.
- Once deployed your end user can simply launch Acrobat and sign-in with their Adobe ID to use it
- The next few slides depicts the end user 1st launch experience for your reference

1st Launch User Experience

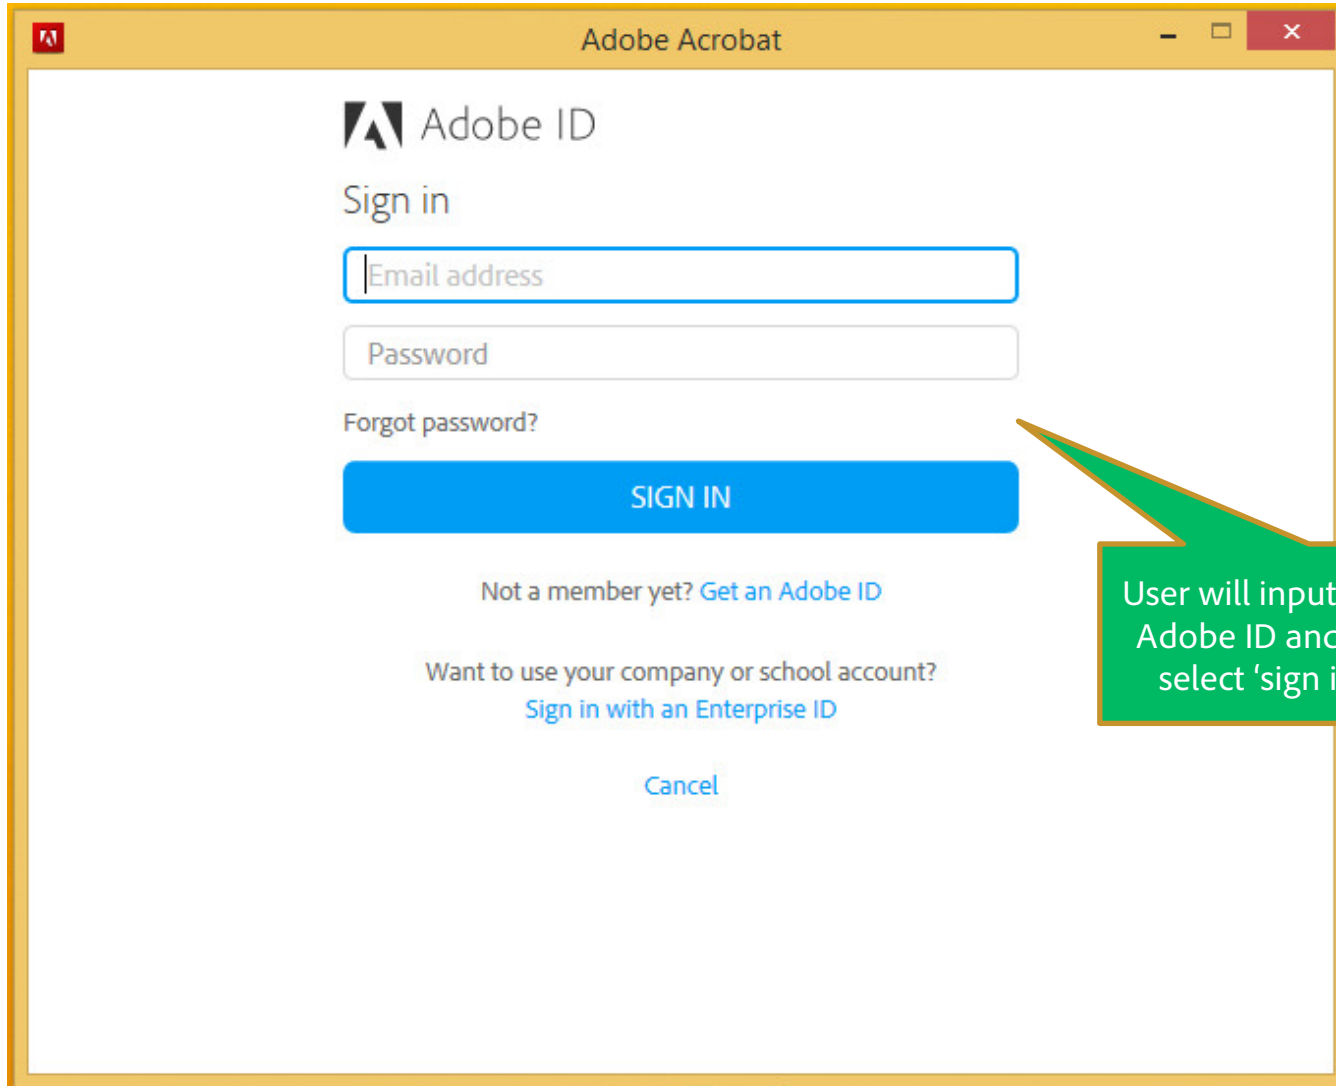

After installation, on launch of Acrobat user will see this dialog

Click "Sign In Now"

Sign In Now

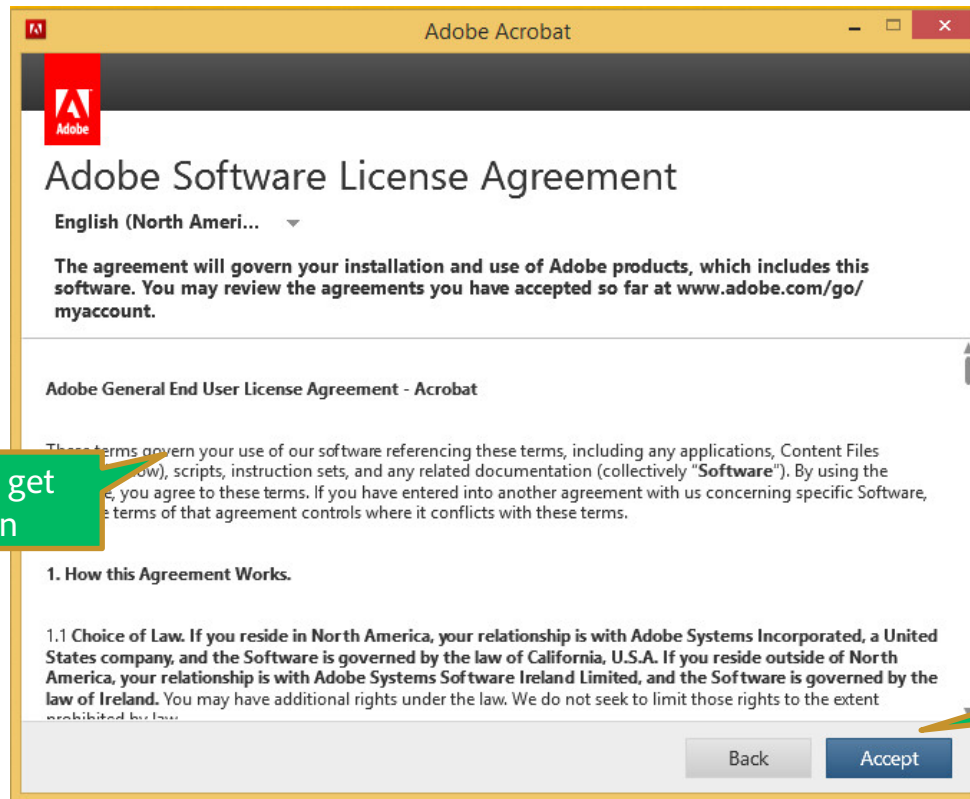

1st Launch User Experience

The image shows a screenshot of the Adobe Acrobat application window. The window title is "Adobe Acrobat". Inside the window, the Adobe ID sign-in interface is displayed. It features the Adobe logo and the text "Adobe ID" at the top. Below this, the text "Sign in" is shown. There are two input fields: "Email address" and "Password". A link for "Forgot password?" is located below the password field. A prominent blue "SIGN IN" button is centered below the input fields. At the bottom of the dialog, there are three links: "Not a member yet? Get an Adobe ID", "Want to use your company or school account? Sign in with an Enterprise ID", and "Cancel".

User will input his Subscription Adobe ID and password and select 'sign in' to continue

1st Launch User Experience

Next User will get EULA screen

Click Accept to launch the Application

Note: You have an option to suppress the EULA using the Customization Wizard
